

Birth of the New Humanity: Understanding by plasma science Teaching by Mr. Keshe

Excerpt from 415 KSW, 2022 01 13; starting at around :48 time. Note: Summary has not been checked by KF. Please listen to original recording and read English Transcription after the post. (Summary by KF Brazil)

Introduction:

As darkness has fallen over the entire planet, now more than ever, we are all waiting for that glimmer of light to break through, to take birth. All of the religions foretold of a dark period humanity will go through just before the return of the Messiah, the second coming of Christ, return of Methi, Maitreya and Kalki. Through the teachings of Mr. Keshe and the Keshe Foundation we call this event the Birth of Mitra, which took place on 21st of December 2021. Some of us felt this power, this love for the Creator enter our dimension on the winter solstice. But what does it really mean in terms of the true science of creation? For those who are brought up in a materialistic and atheistic society these are just beautiful words. Now through the plasma science as taught by Mr. Keshe we can understand what all these words mean and test them scientifically - that is if we want to.

All of these ideas point to a birth. The birthing model we have is that of a sperm and an egg interacting, dividing and growing into a new being called, a baby or an offspring. In essence, this is the same thing that is happening to the earth as a planet, through the human race right now. The process has already started and it cannot be stopped.

First it is important to know that the body's cells are also souls. All of the body's souls have a controlling soul, called the Soul of the Physicality (STP), which is seated in the heart of the man. In turn there is a controller over the whole being, which is the Soul of the Man (STM), seated in the middle of the brain. Not only is the STM, but all souls are deeply connected to the Soul of the Creator.

What we understand is that in physicality, the body gathers the essences from all its cells and transfers them to the sperm and egg. In the same way people from all over the planet have gathered together to form the Universal Council, and they are being fertilized with the Knowledge of the Creator. I understand this to be done, all at the level of the soul, not physicality.

The "Soul of the UC" will become the controlling soul of this planet, and it will determine how it will manifest itself in physicality. One could say, that the soul of the "new human being" will setup the new shape and structure for planet earth. From humans, in the dimension of physicality, we will see it being done through the UC. I believe this is why Mr. Keshe stated, that the world leaders will have to find a way to work with the UC. The money of the Rothschild's has no power in this dimension of the soul. It will be done as he says.

One other thing is the date of February 22, 2022. All the two's line up on a Tuesday which is the day the UC meets. This was done intentionally and he said, that maybe the Methi will declare himself on that day. We as KS are responsible to prepare for the change.

The final point is that Austria, Arizona and Tehran have all been chosen for this process. The 3 points create the base of the Star Formation, and the 4th point will be the manifestation of the totality.

For those KS who have given their complete heart and soul to the process, it is all very clearly spelled out. It could not be any clearer. We all can go within and discover this clarity, and become a conscious part of the process. Everything we as humans understand at this moment has been fulfilled, even the scriptures of every religion. There is nothing to hold us back except fear, which Mr. Keshe has dispelled by teaching us the knowledge of the Universe. The soul weeps with joy knowing that it is a part of this glorious completion.

Please read the summary and transcript for a better understanding and please forgive any mistakes that may have been made in the interpretation. Also join with all the KS through the soul, to elevate the souls of the world leaders, religious leaders, and scientists so that

together we bring the world peace and allow the technology to come out into the open. Share this with everyone and let us prepare the world for Methi to declare himself.

Thank you very much

Summary:

It's not anymore who is going to bring the technology (T) out, but how. The knowledge will be collectively transferred to all of us. Once the units arrive in Arizona (AZ), Tehran and Austria we'll show everything live through cameras to every nation. We'll show how they are doing it. We'll invite leading world scientists to join us and together we'll deliver the T. We'll show how this simple system can be changed to do whatever we need, from transportation to material production, and even elevation of the STM.

I hope I gave you a very beautiful gift, what you have been wishing for all these years to do. It's not my job anymore, it's your job to make sure every nation receives its gift, and every scientist from each nation has the right to be able to input into their system. We will deliver these systems one by one until we achieve the process of understanding the totality.

Funding these projects is heavily burdened on the KF, but there is a limitation to what I have managed to support financially. Therefore, we call on all the Knowledge Seekers (KS) to support this project. Now it depends on you and how you will achieve it in your areas. It's up to you to raise the consciousness of your nation to finance the project, to be there to see it happen and to become part of it.

We'll gradually increase the numbers of EU, so that KS can use them to show evolution in their areas of science and T. They can show advancement in the world of medicine. Or for example agriculture, by growing plants within the system, and showing that there is enough energy in one plant to feed the nation.

In this process we'll teach you more, and then we'll teach you how to elevate the soul. We'll also teach you how to transport the man to different positions in the U, and to bring back, what we call, "souvenirs of the beauty of the Creator," to show here on earth. (These souvenirs) are from us in other parts of the U. It's like what I said to a Chinese friend of mine, you travel to London and buy a souvenir, but when you turn it upside down, it says, "made in China." In a way, we make it, we send it, we buy it ourselves, and then we bring it back home, to show how far we have sent our knowledge. To show how far we have been able to export our beauty and then bring it back home.

This is the process, but it relies on the KS, especially the Universal Council (UC), to understand how to accommodate this transition. The transition is, in a way, to take responsibility for (sharing) the knowledge and ethos of the creation. There is no religion and no path, except your own. The KS become the followers of the knowledge of the Creator. You decide, by the way you serve, and the beauty you see in serving.

As I said, we are not replacing one religion with another. There shall be no more religions, but there will be a guiding line through the STM. (Earlier we taught that every cell in the body of the man has a soul.) And the body itself also has a soul, that centralizes the soul of every cell, so that they all work (harmoniously) together.

We have created the UC to be that central soul, of every STM on this planet. Once the UC, humanity and all the creation on this planet understand this, then we have created a new body. It's an embodiment of the (entire) earth, with all its citizens, irrespective of their shape, color, path of belief, position, the way they live, be it a man, animal, Vertical (people or vegetation), or a stone. (The man has to be able) to understand and guide.

The purpose of the creation of the UC years ago, was to create that cell, that soul, for the whole of the totality of the human being. We bring an egg and a sperm together, and by its division and expansion we create the STM, and that STM creates the physicality of the man. We did the same, we brought (people) from every part of the (humanity), to create that "sperm and egg," to create that soul, and that soul is the Universal Council. Now it's the job of the UC to give shape to the (new) structure of this planet, and with it to bring mankind to become part of the bigger structure, as a cell in the body, of the embodiment of the Creator, as a Universe and Unicose.

Now we understand the process of the completion. The (Flight) Enhancement Unit brings you to this point (of completion). And 94 flight units will be made available to 94 nations, and more. It's your responsibility to make sure that this gets done. It's the responsibility of the KS to bring the change.

As I said before, there is this one coincidence, it was not accidental, but intentional. The 22nd of February, 2022 falls on a specific day. If you check your calendars, you'll come to understand exactly what date that is, and what it means to many of you. The 22nd of February (222), falls on a Tuesday, which is the day the UC meets. It is the day of the change - of the man to understand the position and the time.

As was said, maybe, maybe the Methi will declare himself on that day. It's the responsibility of the man to be ready for the change. It's the responsibility of the man to prepare the mankind, and the world leaders for that change. And it's the responsibility of the man, that the change through science and technology, and ethos, will be delivered in both dimensions, the physical and the structure, that the soul of the (flight) system will create.

The new flight enhancement units are not just for flight, they're for the flight of the freedom of the STM. It's the responsibility of the UC and KS, to make sure every citizen of this planet, every created things on this planet, has equal opportunity to raise his soul to the level of understanding.

Where it was said, "the lion will live in the same den as the lamb," in a way, it's the den of knowledge, the soul of the lion and the lamb, and the man will understand the same. They all will become of the same essence of the source, of the knowledge of the Creator.

Then we understand. As I said, would you eat your brother, or would you kill your own child. By this understanding the killing will come to an end. In time, man will mature to move on, to become part of the Universal Community, and use the fields of the Universe to survive, and not to kill to become part of.

When you look at the flight EU video again, first see the ray of light, shining on the unit. With this ray of light, man comes out of the darkness of ignorance and becomes part of the Universal Community by flying into what I call, the womb of the Creator and the creation.

Thank you for today, and I could not have given you a better gift of knowledge, as what I have done today.
