

# Mr. Keshe Discusses Group Divisions Setup in Brazil

Excerpt from 344 KSW

## **Summary:**

A man from Brazil asked Mr. Keshe in the 344 KSW what he has to say to people in Brazil who are questioning (the validity) of the technology and defaming the work (of the KF), by inducing others to see the technology as a threat. And this is occurring within the Brazilian groups themselves.

Mr. Keshe replied empathically, "Nothing." Meaning there is nothing to say. He went on to say, as we always said, many groups and many people use the KF to confirm their existence. They don't exist if we do not show the technology. We know and we see what is happening, and we see the way people are moving around with the technology.

In a way, we know how people take these kind of a steps to confirm their own existence. Let it be. They have to do it. That's why some people turn ugly, because by ugliness we notice them. We pay attention to them. We satisfy their need to confirm their existence. How many times before have we seen this. Don't be bothered by it, because at the end of it, our goal was to be able to share the knowledge freely, and that is what we are doing.

We have seen many people doing this. There is a guy from Germany, who bent over backwards trying to damage us. He wrote to every embassy about us and signed it under the name, "X." How did he help us? Quite simply, we ended up taking the knowledge to the whole of Austria for free. On Tuesday we announced that the exhibition is absolutely free to all the citizens of Austria. At the same time we will compile all the names of the attendees and in due course, KF will allow them to come and work in the factories, that are getting setup in Austria. So now we create the jobs, and we run as a governing -- government, and not as what you call, a fringe organization. The system is being shown now, and (the orders) will be pre-sold.

So those people who put all their efforts in trying to block many things for the KF, by contacting the governments and speaking against us. How did we respond?

We took it to the nation, and you will understand in the coming weeks. All those Austrians who visited the exhibition, especially during this time of trouble, with Corona and unemployment, will learn of the new job opportunities that will be opening up. With 2,000 to 3,000 jobs on the table for Austrians, do you think they are going to listen to a bunch of these people.

## **What Happened in Brazil:**

Let me explain to you what happened in Brazil. In Brazil we had 3 people who hijacked the KF, one was the UC member of the Portuguese language from Portugal. Then we had one lady who threatened everybody, and we don't see her much around anymore, because if you want to speak to Mr. Keshe you have to speak to her and she makes the decisions. And then we had one guy, who we gave a platform to speak at a conference, and now he thinks he is god. He has done a lot of dishonorable things to the Brazilians and we wanted him out of the KF. He walked himself out, and then started to make all this mayhem. He is a disgrace to his work, because he used the KF to do a lot of funny things, including using the universities and everything else. But then everybody realized what he was doing, and now he has to cover his misconduct, that's why he is trying to split up the KF. But the KF Brazil will not split, because of the misconduct of one old man.

As Corona doesn't allow us to travel to Brazil as such, therefore on 21st of October we will have an online Zoom conference with many, many thousands and thousands of KF followers, and government officials.

So don't be worried about it.

The gentleman who started this has done a lot of wrong doings, to a lot of people, and when he was discovered, he blamed the KF. Mr. Mendez (??) has a huge problem, and he is the guy who is splitting up Brazil, because he has, I think he has a couple of court cases, which he tries to bypass too. And we have another guy listening too. So we understand. Don't worry about what happened, with people trying to split. The technology stands strong with millions of people following it. With such a big family, extending so big, that you always find a few misconducts.

To show you how strong and solid the KF Brazil is, last week on one of your nationally broadcasted television programs, you had a 1 hour interview about the KF done by Rafael. And then by 2 popular requests, it was shown for the second time the following day. The program showed everything about the Gans's and how people can help themselves with Corona.

In so many ways, the number of people following the KF is increasing everyday in Brazil by hundreds, by thousands everyday. Every week there are 1 or 2 interviews going on, and all of these have become possible because of Rafael. In addition, we have now established a company in Brazil. These people wanted to be the head of the Foundation, so that they could do all the crooked business behind it, but they didn't get the chance. That's why they are now trying to split it up. You have seen all the misconduct, and now they wanted to carry on with the same thing in other ways. But Rafael, as a correct follower of the Foundation ethos, stood his ground, and they could not rob and steal, or do whatever they wanted to do.

You see in Brazil it was just one man who tries to do these things, but you can go and see all his misconducts, which was why we wanted him out of the KF. Mendez (??) was brought in by Caroline. All these people who you see damage the Foundation have been brought up by one person. And now that, that one is gone, the rest will follow. These were the people who were embedded in the Foundation, by those who were close to us, to do these damages, and now they try to do them. And we'll see this in 2 or 3 other

countries. So do not worry about it. (Go on with your work and stick to the ethos of the KF.)

Q: .. From Brazil, my question is because people here in Brazil question technology and defame their work by inducing others to see it as a threat, this occurs within the groups themselves. What does Mr. Keshe have to say to these people?

K- Nothing, what happened, .. as we always said, many, many groups, many people use the KF to confirm their existence. They don't existence if we do not show the technology. And we know what is happening, we see what is happening. We see the way people are moving around with the technology.
