### **Summary:**

Mr. Keshe came on the One Nation program and gave the most loving and hopeful message: that today on the birth of Mitra - what has been foretold by all the religions has come to pass - that today is the Day of Enlightenment for all of Humanity.

He started his talk by saying that he has come to the Universal Council (UC) meeting as a "courtesy and love to the Creator."

You've got to understand why in ancient times, the 21st of December was chosen to be the birth of Mitra. It's a symbolic. It is a symbolic birth of becoming enlightened, after a long time of ignorance, and living like animals. (At that time man only) understood about his physical dimension, what he needed to eat, and to sleep, and whatever else he needed.

The 21st of December was chosen as a symbolic enlightenment, what we see as the light of Mitra. You have the night of the 20th into the 21st, as the longest night of the year, symbolic of the darkness, or the ignorance of man. It's like after such a long time of ignorance of the Creator - man awakens into the 21st. And that's what it is. This is how the life of Mitra has been celebrated. It's the enlightenment of man, to understand the Presence and existence of the Creator.

Man was ignorant. He was just living in the jungles like the animals for a very long time, which is symbolized by the longest night of the year. Then we are enlightened into a new cycle. We are enlightened to understand the Presence of the Creator.

It's the same process in all the religions. They call for confirmation (recognition) of the Messiah, Mitra, or Methi, but it is that light (they are referring to). This is the time when man will be woken up for the second time, he will be enlightened again, (further). We have been in such a long, long time of darkness, of not understanding the truth about God and the rest of it. Now, man becomes enlightened to the understanding of the presence of his soul.

Today is that day. This is the day (we have all been waiting for.)

Finally man has become enlightened to understand the presence of the light of the creation. Today, after thousands of years, and for the second time, man is getting enlightened. To be aware of the existence of the Creator, to awaken to the light, that light which is the (awareness) of the presence of his soul, and of the Creator.

In so many ways, the religions, and other things, have covered it up under different names. It is called Mitra, Messiah, or Mashiach in Jewish language, (and Maitreya and Kalki), and it's the same with Methi. They all come from that same name. It's all the same enlightenment, or the time when man knows the truth about himself, the existence of his soul. Maybe for the first time today, man understands the true meaning of Messiah.

(The first time man got enlightened, he understood that the Creator exists.) The light of the existence of the Creator, the light of knowledge. He knew what it is. And today (he got enlightened to know that,) that light is within him, that it is the Creator. This is what is called, "The Day of Judgment." The Day of Judgment is when he gets enlightened to understand, that the whole essence of the creation, and the light, is within him, which is the Soul of the Man (STM), the knowledge to understand.

As of today we will see many changes. As man has matured to what we call, "another cycle," and to what we call, "existence." Many of you were waiting for the birth of Mitra, but Mitra has already been born. It's the presence of understanding, it is what I call, "resurrection." (The Promised One) has come back in the name of the Man himself. He is each one of your souls - and nothing else.

Your souls - your Soul of Physicality (STP), or the dimension of the physicality, becoming aware of the darkness, that you lived in for so many years. It doesn't matter

under what name, religion, or belief you put it. This is that day, what they called, the Day of Judgment. (But we call it now), the Day of Enlightenment. Where in the past, they always covered it under the name of, "when somebody comes." That somebody is you. That somebody is your soul to be enlightened, and awoken from the long dark night of the 20<sup>th</sup> into 21<sup>st</sup>.

In a way, it's a change from the Day of judgment, which was for judging, to recognizing that the light of the Creator is within you - and nothing else. You will see the changes. From now on mankind will change rapidly. We will bring that change in one way or another. We have already started the change.

As of yesterday, and in the coming time, you will see a lot of changes in the history of man. We have made moves in many directions, and it involves everyone of us to reach from one point to another. This is the true understanding of the 21<sup>st</sup> of December, or what I call, "the day when the man got the enlightened."

It's the point of the birth of the Soul of the Man. It's for man himself to understand the existence of his own creation and Creator, which is within him. This is what brings in a new cycle. You will see huge changes to come.

The year 2022, is the year of balance, and the year of corrections. It's the core base of the change for humanity, and we have started it. You as Universal Council (UC) members have supported it, without you knowing. You are establishing it through your soul, and not your physicality. I think that in the past few minutes, we now understand the truth about the 21<sup>st</sup> of December.

This day, we don't call it the resurrection of Mitra. But it's the day that was promised by all the prophets. Not the Day of Judgment, but the Day of the Enlightenment of man to the existence of his own soul, and the new cycle.

Up to now, it was the time before Mitra comes, before the light. The intellectuals confirmed the presence of the Creator. As of today, the man now understands the second cycle, which is the existence of his own soul. That day they called "The Day of Judgment."

Whatever all prophets promised - today is fulfilled.

Today is the day of Methi.

Today is the day, which was promised to be the "day of the Messiah," and the rest. The day when man now is fully enlightened, and we reach every soul.

It is for man to find the source of enlightenment within himself.

It is the birth of a new cycle, for every soul, in every corner of the Universe. You shall see huge changes within, and the human race will change very rapidly. But it needs examples, it needs those who "stand out." It needs to be shown, to be guided, to work as one, and what we call, "across borders." (We erase the boundaries separating man from each other.)

Aside from what today stands for, as we guide, we will bring the position. The KF has made those moves to bring about the breaking down of the barriers, of the borders, of those injustices (that separates us).

We had an extremely successful 5plus1 negotiation in Vienna, which closed on Friday for Christmas. Hopefully, during this week, the other part of it will come together. In a very direct, but indirect way, we had to interfere. As many of you know, the negotiations were just about to break apart. KF through its work, directly intervened in the background, by releasing knowledge to the Americans, and to the rest. We brought understanding, that there is a need for a change, and with what we know, we can bring that change.

During the week we interfered, and we've seen the progress. We've seen how those who were arrogant stepped down, and those who were pushing, stepped up, to understand what they can do. It's thanks to many of you as Knowledge Seekers and UC members.

I spent the week in the background cajoling in every way for them to understand, that there is no need for this (blocking the technology from coming out). And we achieved it. This is a beautiful day, and after the 26<sup>th</sup> when we resume negotiations, we shall see what we call, "concessions, " and "somehow mankind will come to understand that." And to celebrate the opening of the understanding, that the nations will change.

KF has made the next move. We made agreements with KF Arizona, lead by John, and KF as a shareholder. We also made agreements with KF Iran, with the Iranian team behind it. KF has released orders for 1 Flight Enhancement Unit (FEU) to be sent directly to Arizona, and one directly to Tehran.

The first 3 Units, which will be completed hopefully in next few weeks, will be sent to each Center. We have invited the Chinese government, the Iranians, and the Americans to work together at these 3 Centers from the first week of January. We do this to make sure that collectively, we create a condition of peace amongst all nations through travel, space travel, and the breaking of the borders. We have invited NASA at the highest level, the governmental Chinese Space organization, and have requested from Iranian governmental Space organization to issue the invitations for all to join in Tehran. The third one will be in Vienna.

And, collectively these 3 Units, will bring the scientists from 3 nations, for what we call, "all the nations" to work together to reach the target of sixth of June, 2022 flight to moon. Very soon, you will see the first flight system at the Arizona Center. From there on, every week we'll add one more Unit to the number of Enhancement Units in Arizona.

We were not shipping or exporting any technology to the US, unless the understanding of the peace would have been established. We established it, and this gives us more encouragement to open the whole structure of the knowledge between nations. In a way, the first move to bring the borders down, has started, and with this we will see the peace. With this move, we will understand the elevation of the Soul of the Man, to understand more about himself.

It was necessary to do this, to show, that what mankind was afraid of, and what was created to make mankind afraid of, has now become the source of the friendship and peace. In a very short time, in 2022, the knowledge and technology will be at the reach of every man, in every corner of this planet. Soon you will be traveling anywhere you like, within minutes, and it will be done collectively by all the nations.

I thank sincerely and deeply John from Arizona, and the Iranian team headed by Yosef, and the European team headed by Dr. Klaus. These things will take shape in the next 4 or 5 weeks. Scientists from different organizations will be invited to come in, and collectively, build a system, which frees man from the physicality of this planet. Everything is set for it. Arizona is ready to go, and we have started all the processing in this section. The "platforms for flights" are getting developed in Arizona to be ready to accept the units. The same will be in Iran and in Vienna.

We signed yesterday, to establish the first Spaceship Company in Austria. They will be ready and within the law, to accept and bring in the first Space Units into Europe. In Vienna, the heads of the IAEA can be present while the technology is being developed. This will bring an end to the fear of Iran and nuclear weapon technology.

We have invited all the space agencies on the governmental side, who are effective in this game, to join us. This brings a huge change. This brings, as we said, the first step for the man to wake up from the night of the 21<sup>st</sup>, from such a long time of darkness, and creating borders and divisions. Now we break those divisions and borders. This is the beginning of a lot of changes for many of you.

By the end of 2022, many of you will not even remember what happened in 2021. Because the changes will be so joyful, that man will start understanding the process of the creation, the Creator, and the Soul. Because the more people who get involved with this, the more people will get enlightened. In the process of developing the space flight technology for flight, you will also see the production of materials within the system, and the Enhancement System. But in reality you will see the enlightenment of the Soul of the Man. Now you understand what I said, that many of you, when you go into this system, will see a light glowing inside. This is where your soul elevates you, to understand the totality of the knowledge.

It's the beginning of the change. Today, is the day which was promised.

Many of you were afraid of the Day of Judgment, the day of what we call, "return."  
Today is that day.

Many of you will understand this very soon.

Today is the day, what they called, "Eternal Methi", the Messiah and the rest. It is you, in that "return." Now you understand how you've been enlightened. How long you've been living in the darkness. It lasted so long. Now it is the light.

This is what was promised, "the return." The return to the next cycle, when man understands his new, what we call, true love for the Creator and the created - himself.

We had to do this. As I said, 5plus1 will be the catalyst to bring that change. One day we will release documents, so that all of you understand how the world leaders understood, and how we interfered, and how we intervened.

Thank you very much for all your work. You stayed there solid, and supported the soul of the negotiators, and the world scientists who endeavor to break "the laws of the past."

Questions:

Q: I have a question about this transition from very long night to enlightenment. Has this has anything to do with "ages," are we moving from some age to another?

K- Time does not exists, and an age is part of the time.

Q: According with what has been explained, for example, Pieces, we are moving from Pieces to Aquarius? And what does that mean?

K- We don't have a process of time, except when you are in the matter state. Now, the totality has moved to a dimension of understanding the totality.

We will see the time, when the new knowledge will manifest itself amongst the human race, and other races. At that time we'll find out, that the knowledge we've had up to now is nothing, compared to the knowledge, which has come, and needs to be understood.

But, the beauty of it is, from now on, when one understands the knowledge, the rest will do the same. It's for man to be able to tap into that knowledge, and have it within reach at the point of need. And that's all it is.

It's not moving from one age to another. It's for man to understand, that from now on, what was promised in the all the holy books, the Day of Judgment, or the day when everyone will be present in the presence of the Creator, that, that presence, is the presence of the Soul of the Man, and not dimension of physicality. (You) will be enlightened to the knowledge of the Creator.

Those who understand it, will endeavor to achieve more, and those who try to ignore it, will stay the way they are, until they've been enlightened, or until the point where they see the light. But it is not, that the light is taken away from them. It is them who will choose, be it a stone, be it a man, be it an animal, be it any creature in the Universe.

Q: Thank you very much Mr. Keshe for bringing us step by step to this enlightenment, we welcome whatever is ahead. And thank you very much for your teachings.

## **English Transcription** : excerpt from 201<sup>st</sup> One Nation One Planet (12/21/21)

(1:50).

K- Good evening, sorry to come in, this is the UC session, but today, as a courtesy and love to the Creator.

You've got to understand why the old Ancient time, they chose the birth of Mitra to be 21<sup>st</sup>, of December. It's a symbolic. It is a symbolic birth of becoming enlightened after a long time of ignorance, and being like animals, being living, understanding only what it needs to eat, and sleep, and whatever goes with the physical dimension.

The symbolic enlightenment, what we see as the light of Mitra, and why .. 21<sup>st</sup> of December has been chosen, because, it's symbolic, in a way that 20, 21st, the night, is the longest night in the year. Showing the darkness, the ignorance of man. And, after such a long time of ignorance about the Creator, (1:52). man has awakened. And that's what is, that's how the life of Mitra has been celebrated. It's enlightenment of the man to understand the Presence, and what we call the existence of the Creator.

Man was ignorant, he was just, living in jungles like animals, and a long time, which is the longest night of the year, symbolical of that time, and then, enlightens us to a new cycle. Enlightens to understand the presence of the Creator.

In the same process, if you look at all the religions, when they call for confirmation of Messiah, Mitra, Methi, is that light, is the time when man will be enlightened again, woken up for the second time. Now that has been such a long, dark time of understanding about the God, and the rest of it. Now he becomes enlightened to understanding of the presence of the Soul. And, this is that day, today is that day. For once man became enlightened to understand the presence of the light of the creation, after such a long darkness of time.

And now, after thousands of years, for the second time, today, man is getting enlightened. To, even though being aware of the existence of the Creator, to awaken with the light, that, (1:54). that light, awake-ness is presence of his Soul, and the Creator.

In so many ways, religions and other things have covered it up, under different names, but, Mitra, Messiah, Mashiach in Jewish language, the same in Methi, all comes from that name. All is the same, enlightenment, the time when man knows about the truth about himself, the existence of his Soul.

As I said many time, maybe for the first time, man today understand the true meaning of Messiah. Once, got enlightened, in the light of the existence of the Creator, the light of knowledge, that of what it is, and again today, with the light, that within him, is that the Creator, where we call "The Day of Judgment." It's when he gets enlightened to understand, the whole essence of the creation, and the light is within him, which is the

Soul of the Man (STM), the knowledge to understand. And, we will see, as of today, many changes. As man has mature to the what we call, another cycle, of what we call existence.

Many of you were waiting for the birth of Mitra. Mitra has already been born. It's the presence of understanding, is what I call "resurrection." What, he's comeback in the name of man himself, each one of your Souls, (1:56). nothing else.

Your Souls, your Soul of Physicality (STP), or the dimension of the Physicality becoming aware of the darkness you lived in, for so many years, under name of, it doesn't matter what religion, or what belief. This is the day of what we call Judgment. This is the day of enlightenment, where in the past, they always covered under name of, "when somebody comes." That somebody is you is your Soul, to be enlightened, and awoken from such a long, night dark, of the 20<sup>th</sup> into 21<sup>st</sup>.

In a way, it's a change, in a way is the Day of Judgment, for judging, recognizing the lights of the Creator within you, and nothing else. And, you will see changes, mankind will change rapidly from now on, and we will bring that change, one way or another. And we have started the change.

As of yesterday and in coming time, you will see a lot of changes in the history of man. We have made moves, and in so many directions, it's involvement of everyone to reach one point to another. This is the true understanding of the 21<sup>st</sup> of December, or "the day when the man got the enlightened."

As, it's the point of the birth of the Soul of the Man. For man himself to understand the existence of his own creation and Creator, which is within him. (1:58). And this, in a way, brings a cycle, you will see huge changes to come.

In the next 2022, is the year of balance, is the year of corrections, it's the core base of the change for humanity, and we have started it. You as Universal Council (UC) members have supported it without you knowing, and you are establishing it, with, through your Soul, not your Physicality.

And I think, in a very short, few minutes, now we understand the truth about 21<sup>st</sup> of December. And the, what we call, not resurrection of Mitra, but all the Prophets, promised to, to this day. Not the Day of Judgment, but the Day of the Enlightenment, of man to the existence of his own Soul, and the new cycle, that up to now, before... before Mitra comes, before the light, the intellectual confirmed the presence of the Creator, now man understands the second cycle, as of today. The existence of his own Soul, "The Day of Judgment".

Whatever all prophets promised - today is fulfilled. And today is the day of Methi. Today is the day, which was promised to be the day of Messiah, and the rest, when man now is enlightened fully. And we reach every Soul. (2:00)

And it is for man to find the source of enlightenment, within himself. Is the birth of a new cycle, for every Soul, in every corner of the Universe. And, you shall see huge changes within. And human race will change very rapidly. But it needs examples, it needs standing out, it needs to be shown, to be guided, to work as one, and what we call, "cross borders."

And, aside from what today stands for, as we guide, we bring the position, KF has made those moves, to bring those to break down, through barriers, through borders, through injustices. We had an extremely successful 5+1 close on Friday, and hopefully during this week, the other part of it will come together. In a very direct, but indirect way, we had to interfere. As many of you know, the negotiations were just about to break apart.

We've seen how those who were arrogant stepped down, and those who were pushing, stepped up, to understand what they can do. Thanks to many of you as KS, as UC members.
