EDJUSTA
HOT - TUB - SAUNA

We strive to produce the finest quality products that meet the unique needs and expectations of each customer – this is the primary goal set by EDJUSTA, the company which has been successfully growing since 2009.

We are located in the heart of Europe, in a beautiful forested area in southern Lithuania. Driven by a passion for craftsmanship with a use of modern technology, over forty professionals and dedicated employees manufacture premium outdoor saunas, hot tubs and a variety of other wooden outdoor leisure products, which are becoming increasingly popular not only amongst Lithuanians, but in the foreign markets worldwide too.

Over fifteen years experience allows us to create high quality products with longevity in mind and in a sustainable manner. We use renewable natural resources and control every aspect of manufacturing process - from the preparation of raw materials to the completion of the final goods. Our highly skilled and motivated team ensures that the product manufacturing process is smooth and that the goods are delivered at the right address and in a timely manner.

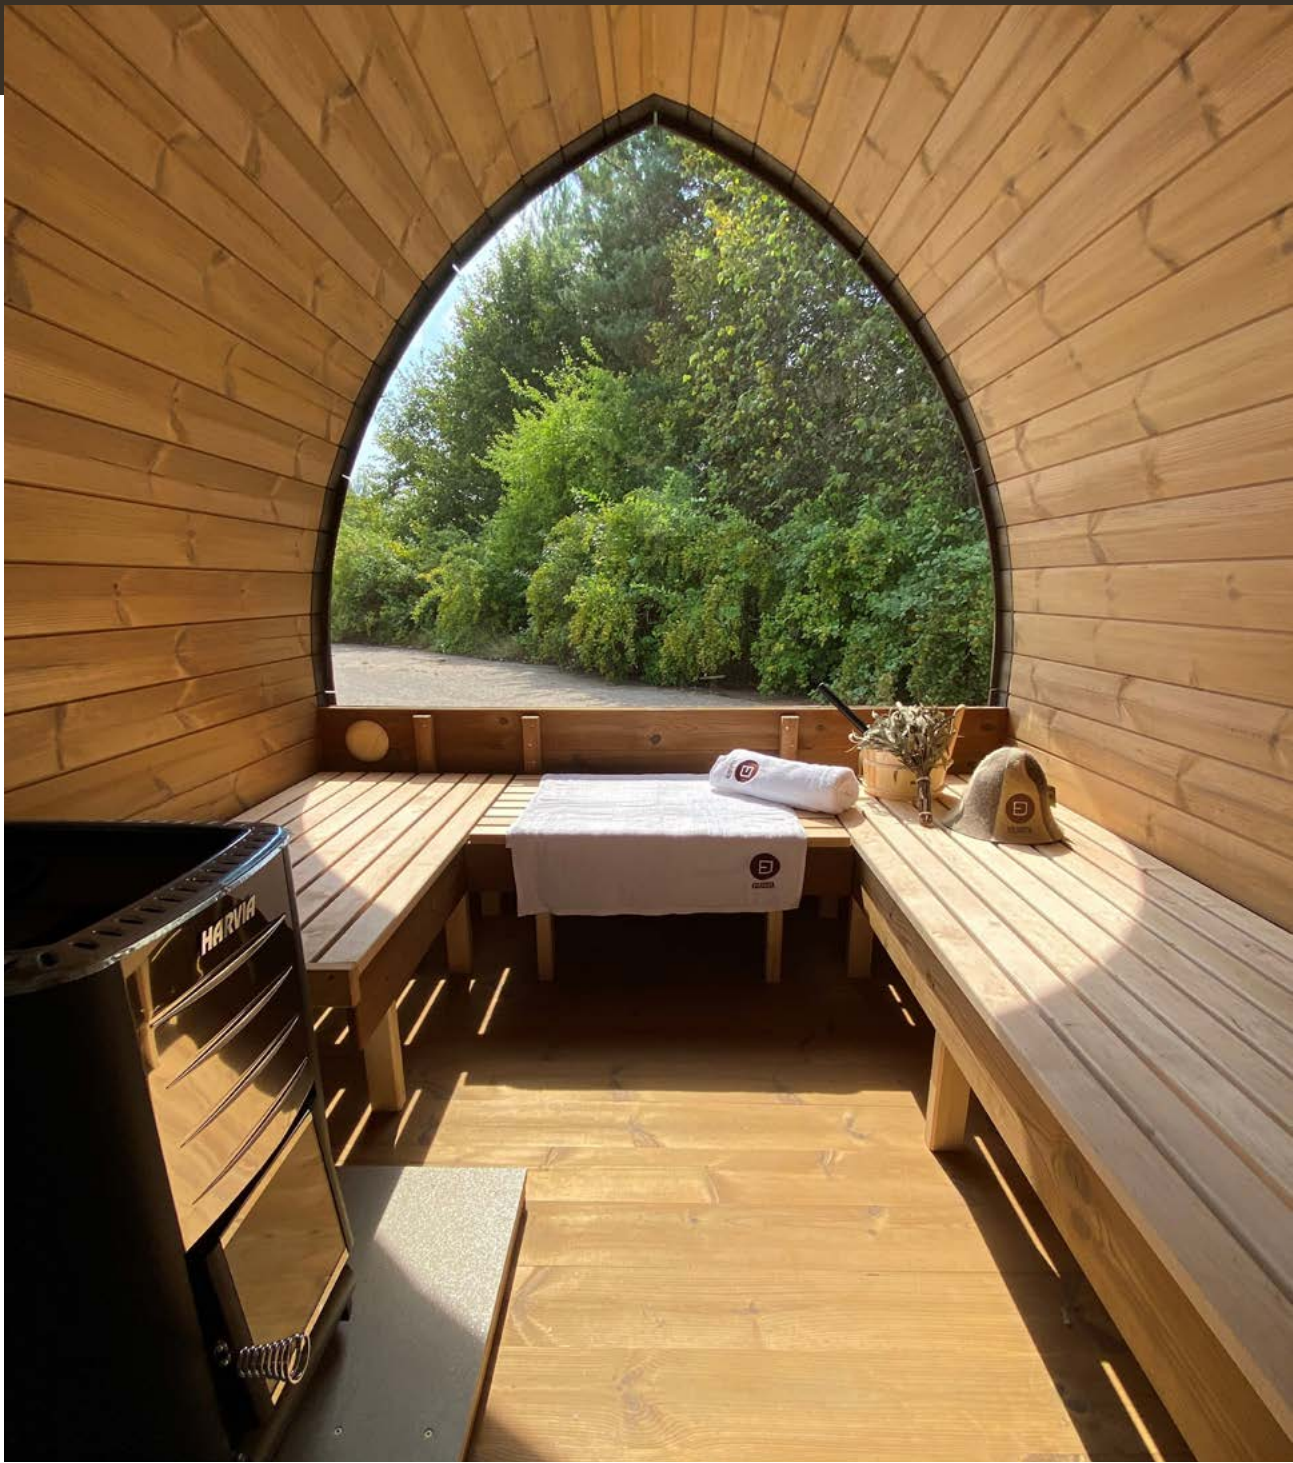

It is this responsible approach to product quality that has allowed us to continue expanding and increasing our customer base, which currently includes not only the Baltic and Scandinavian countries but many other countries across Europe and other continents too. We firmly believe in our products and services, and therefore provide warranty with our sales.

We offer a wide range of products, from handcrafted saunas and hot tubs to wooden showers and garden sheds. And if you need something unusual, this is definitely not a problem! One of our key strengths is being open to innovations. Our customers have full freedom to create their own product specification. Your vision and our experience can make any wish come true, and we promise we will find a bespoke solution to meet your individual requirements. All you need is a little courage to dream big!

Please get in touch with our enthusiastic and professional team, who will not only listen to your specific needs, but will also ensure that your finished product creates unique moments of peace and tranquillity in your outdoor space for a long time to come! It is all quite simple: we are only satisfied when you are too.

EDJUSTA team

- Exterior impregnated in selected color (color palette offered by us).

Iglu models:

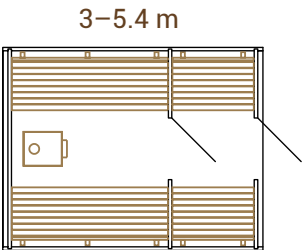

One area

A standalone sauna room tailored to your chosen size – an ideal option even for those with limited space but a desire to indulge in sauna relaxation.

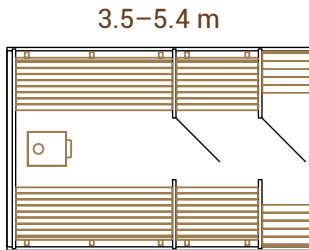

Two areas

A combination of a sauna and a changing room, catering to those who appreciate a bit of extra space. This option not only provides the benefits of a sauna but also includes a dedicated area for changing and storing clothing.

Three areas

Experience the perfect synergy of sauna, changing room and terrace – a superb choice for maximizing available space. In addition to the sauna and changing room, there's an open terrace to take a brief rest and fully enjoy the sauna experience.

* The photos in the catalog are for illustration purposes only and may not reflect the standard product configuration. Each sauna is custom-equipped based on the customer's preferences. An extensive list of accessories can be found on the 26 page.

The triangular structure of our Iglu sauna is not only visually appealing but also enhances the overall functionality of the space. The unique shape allows for efficient heat distribution, ensuring that every corner of the sauna is enveloped in the perfect warmth for a truly rejuvenating experience. Whether you choose to install it in a bustling urban setting or the serene tranquility of a lakeside retreat, our triangle-shaped Iglu sauna will seamlessly integrate into any environment, becoming a standout feature that complements the natural beauty of its surroundings.

BARREL SAUNA

Enjoy a unique, rounded design of our barrel sauna, providing an exceptional spa experience at home. The cylindrical shape promotes natural air circulation by gently redirecting air along the curved walls. Compared to traditional square-shaped saunas, this design requires 23% less space to heat, resulting in longer steam cycles and lower costs. Whether you prefer an assembled unit or an unassembled option, the latter requiring minimal tools for quick and easy self-assembly, our barrel saunas accommodate various preferences and lifestyles.

BARREL SAUNA

- Standard set:**
- Wall thickness - 42 mm;
 - External height with pad - 2490 mm;

Welcome to our diverse selection of wooden summerhouses, where versatility meets elegance. Our unique models – Pod, Barrel, Iglu, and Moderno – cater to a variety of tastes and requirements. What makes each one special is its adaptability – we can leave them empty, allowing you to unleash your creativity and tailor the space to your needs. Alternatively, they can come fully furnished with thoughtful design elements and amenities. Think of our summerhouses as blank canvases awaiting your personal touch. Use them as a foundation to create a space that resonates with your vision. Whether you're looking for a tranquil escape, an entertainment hub, or a cozy workspace, our summerhouses can be customized to suit your needs.

- Factory assembly.

* The grill house comes fully unassembled (as a kit). It can be assembled by 2 people within 18 hours depending on the experience. Please note that choosing unassembled products means receiving wall planks without impregnation.

OUTDOOR PLAYGROUNDS

Wooden playhouse with a swing and slide

Fabulous wooden playhouse for active kids. They'll have a blast swinging for high-flying fun or zooming down the 2-meter-long slide at super speed. When it's time to cool down, relax, or take cover from the rain, the spacious playhouse is right there.

Measures: height 3100 mm, length 3300 mm, width 3320 mm;

Wood: Spruce (impregnated in a chosen color (color palette offered by us));

Roof: covered with bitumen shingles in your selected color (black, brown, green, red).

* **Please note:** this product will arrive unassembled, requiring a few tools for assembly.

OUTDOOR PLAYGROUNDS

Double wooden swing

Hand-crafted wooden swing set for family relaxation on your patio, garden, porch, or anywhere else. Made from solid wood, this traditional swing chair boasts a timeless design. The durable materials ensure it will endure, regardless of changing garden trends.

Measures: height 2410 mm, length 3800 mm, width 1500 mm;

Wood: Spruce (impregnated in a chosen color (color palette offered by us)).

* **Please note:** this product will arrive unassembled, requiring a few tools for assembly.

Wooden sandbox

With a low-maintenance design, universal cover that can convert into benches, and its spacious size, the wooden sandbox offers a safe, expansive space for kids to play.

Measurements: 2500 mm x 2000 mm or 2500 mm x 2500 mm;

Wood: Spruce;

Color: Wood impregnated in a chosen color (color palette offered by us).

WOODEN HOT TUB

Relax and unwind in the nature while you enjoy the gentle crackle of firewood and the comforting fragrance of freshly cut timber. Simple to operate and fast to warm up, a wooden hot tub provides the ultimate natural experience, letting you fully indulge in the delights of nature, enjoying the scent of wood smoke and the soothing warmth of the water.

WOODEN HOT TUB

Wood types:

- Spruce;
- Thermo wood.

Standard “Basic” set:

PLASTIC HOT TUB

These hot tubs feature plastic liners made from high-quality polypropylene, a material commonly used in outdoor pools. This material exhibits resistance to cold weather, UV rays, and all sorts of environmental challenges. Plastic hot tubs provide better hygiene than wooden ones because you can drain the water easily after each use, all the while maintaining the natural aesthetic of a wooden hot tub from the outside.

PLASTIC HOT TUB

Wood panelling:

- Spruce;
- Thermo wood.

Standard set:

- Polypropylene insert with outer wooden paneling;
- Plastic benches;
- Impregnated walls in a chosen color (color palette offered by us);

FIBERGLASS HOT TUB

Fiberglass tubs provide the optimal price and performance ratio. What makes them stand out is the ability to swap out the wooden exterior without replacing the entire tub. Tubs, the hot tub insert is made of a single piece of fiberglass fabric with curved benches which allow you to save up to 500 liters of water. Fiberglass hot tubs come with an external, integrated heater, giving them a sleek and luxurious appearance, without any extra exterior elements that take up space. The fiberglass hot tub is a durable product that does not require any additional investment of expense. Plus, they are incredibly easy to maintain.

FIBERGLASS HOT TUB

OFURO BATH

These tubs draw inspiration from an ancient Japanese tradition. The authentic ofuro bath is a sturdy wooden tub designed for a 'sit and soak' experience, featuring a deep structure for total body immersion. It's perfect for relaxing alone or enjoying a cozy two-person bath. Plus, after a sauna session, the ofuro can serve as a cold water bath. These tubs are easy to move around and heat up quickly, thanks to their smaller water volume.

Wood panelling:

- Spruce;
- Thermowood.

Standard set:

- Wall thickness – 42 mm;
- Floor thickness – 34 mm;
- External height – 1000 mm;
- External width – 1000 mm;
- External length – 1400 mm;
- 2 stainless steel tightening bands;
- 2 opposite-facing wooden benches;
- Wooden cover;
- Impregnated outer walls in a chosen color (color palette offered by us);
- Wooden steps;
- Water drain;
- Thermometer.

Ofuro bath upgrades:

- Sand filtration system with big wooden cover box;
- External stainless steel wood-fired 20kW heater (grade 304 or grade 316);
- LED Lighting;
- Air massage system (12 jets);
- Water stirring paddle;
- Fiberglass insert.

OUTDOOR BARREL SHOWER

A wooden shower will greatly compliment your sauna or hot tub in the garden, or can simply look great on its own. It can be made of high-quality Scandinavian spruce or thermowood. A shower is durable and does not require special care. It is protected from moisture and environmental impact. A cold shower is a convenient solution for hot sauna seasons. This outdoor shower can be easily connected to any water heater – solar-heated water boilers or other water heating systems.
