Wooden frame sauna "Mini Moderno"

Detailed description:

- Dimensions: 4210mm (length) x 2450mm (width) x 2600mm (height).
- Construction wood: Finnish spruce, grading 24, quality class AB.
- Roof: "Classic" sheet metal, 0.6 mm thick, coated with a polymer coating with a nominal thickness of 50 µm, with an air gap.
- Insulation: 100 mm stone wool with a thermal conductivity coefficient $\lambda = 0.035$ W/mK, non-combustible, A1 class.
- External finish: "Classic" sheet metal, 0.6 mm thick and wooden shingles.
- Terrace with benches in front.
- Hexagon window on the side, tempered glass.
- Three recessed ceiling lights, protection level IP54.

Changing room:

- Entrance door with 2 windows, made of 4 mm glass. Locking, featuring adjustable hinges.
- One openable bench, made from hardwood for optimal comfort.
- Hermetically sealed LED strip mounted in an aluminum ceiling frame with an IP67 protection rating, powered by a Mean Well 60W 12V IP6 power supply.
- One double recessed socket, protection level IP44.
- Sound system DM835.

Sauna:

- Entrance door (between sauna and changing room) made of 6 mm tempered glass, non-locking, featuring adjustable hinges.
- L-shaped benches, made from hardwood for optimal comfort.
- Pull out lower bench.
- Hermetically sealed LED strip installed beneath benches and backrests, with an IP67 protection rating, powered by a Mean Well 60W 12V IP6 power supply.
- One "Harvia" SAS21060T lamp, protection level IP44 (with a wooden cover).
- Finnish-made "Harvia M3" wood burning heater with 2 boxes of Olivine Diabase stones. The heater provides rapid heat-up times and ensures efficient air circulation.
- 22L stainless-steel water tank on the chimney.
- Flooring – PVC coating for easy maintenance.
- Heat-resistant protective "Cembrit" plates for the heater.
- Octagonal window on the side wall.
- Two ventilation diffusers for proper fresh air flow.
- Water drainage hole for easy sauna maintenance.

Electrical installation uses H03VV-F and H05RRF cables, with fire-resistant HDGS cables in the sauna area. Protection is ensured by a current leakage relay A9Z05425 and K60N C automatic circuit breakers
