

## **Coronavirus: SOLVED by Iran**

**Complete Summary of 322 KSW April 2, 2020**

Note: Summary has not been checked by KF. Please listen to original recording and read English Transcription. (Summary by KF Brazil)

### **SUMMARY:**

Mr. Keshe started the workshop saying, hopefully, today, as with all the times that have passed before, we'll add to our knowledge in a different way, as the times are different. Today, we'll concentrate on what we call, 'the topic of today,' and the science that is needed for that time and that age. At the moment, as we are gripped in this Coronavirus situation, every effort is being made by all the nations and in every direction, for the scientific world to achieve, or understand the breakthrough. In this process we are not the only ones working to find a solution, but one of many, and we are doing, what is called in

African language, 'our level best', to be able to help, at least our Knowledge Seekers (KS) and many others as well.

#### Chinese Military Brought Out Technology as Their Own:

As you all are aware, we worked heavily with the Chinese government and authorities. We gave them the Cup of Life (CL), and we explained it to them, but after they tested it and saw the results, they took the technology back into their Military, and then brought it out in a different way. They have managed to curb the situation using the technology. However, if the Chinese authorities would have been more open with us, together, we could have prevented many more deaths.

#### Iran has Cleaned One City and One Hospital of Virus:

The situation in Iran was quite the opposite, through the openness of the Iranians towards the KF, we have been able to help many, and maybe we can stop the suffering of many more. In so many ways, we are a few weeks ahead of the others. In Iran, we have managed to totally clean one city and one hospital of the virus. This morning, most probably for the first time, we hope, there will be no more Corona patients in this hospital. The emergency room carries 10 beds and it was full when we got there, but now, there is only one person left, who will probably leave today or tomorrow. As far as we can see, we have lost no doctors or nurses, and no personnel in that section of the hospital that was effected. It has been through the support of Mrs. Mohammadi (MM) and the KF supporters in Iran, that we have taken the illness into the outpatient level. This means that when people come in to the hospital, they are first diagnosed and confirmed to be with Coronavirus, and then they are given a Cup of Life and a bottle of Gans Water. The doctors will also diagnose if it is an upper or lower infection, and then if they have a lower infection, they will also be given the Cup of Life #2. The beauty with the new way, is that, now they go home to live. Before when a patient was told to go home, it literally meant, he would go home to die, and even if he recovered, the rest of the family would get it. We saw this in Wuhan City, when the authorities opened the buildings that were locked up, they found all the family members inside, dead. This hospital in Iran is using and spreading the Cup of Life and the Gans water. Before, it had over 100 patients locked down in their homes, infecting their families, and now the whole family is getting help. As such, there are no more new patients coming to the hospital.

#### First Government to Recognize KF:

Yesterday, ministers or officials announced on national television that this city is clean. What we are telling you has already been released and they have mentioned the name of the hospital and the city. So for the first time, the KF work has been recognized by a government. At the same time, many more hospitals are going under this same cover. In the coming days, we expect a national announcement by government officials in respect to the KF technology. There is a close collaboration between the KF, Mrs. Mohammadi, the KF Iranian team, and the Iranian officials at the highest level. They are gathering the data to confirm the outcome. If they are happy with the whole structure, then shortly they will announce it as one of the alternatives that the government will use for the nation. The beauty with this is that, everyone can help themselves in their own house and then we can

take it to new procedures. In Iran, the Protocols have been changed, we go for more effectiveness, through rapid discharge of the virus from the body.

#### Iranian Government and Sepah will Deliver Technology to World:

In Iran, there are videos of individuals taking into their own hands, the job of washing the streets and towns with the Gans Water, and the KS in Iran have seen the results. One of the KF Internet links to the public has passed 29,000 participants. We closed it for awhile, because it was too large to handle, but now it has been reopened and it is estimated that it is reaching 1 million Iranians across the nation, and many more. It has been said, that one of the reasons the death tolls in Iran has been reduced, is due to the KF volunteer teams across Iran. In the past, if you got infected, you really didn't have a choice, and usually you died. But now the people who know they are infected and are locked down, they come to the KF. They help themselves with the Cup of Life, and then they make many more for their families and relatives. In this cycle, through the new technology, we have taken the edge off of the top of the death rate. At the same time we are seeing a rapid drop in the death rate. The Iranian government has not managed to curb the growth of the virus, but even with this growth, there are no more deaths, as such, or very few, compared to what we see in France, Germany, Italy and the rest. The Iranian government officials will open the technology to all the governments across the planet and it will be delivered through the military and the Sepah on official levels to all the nations. The aim and work of the KF is to curb the whole process of the Corona, and we expect to reach this by the end of April internationally.

#### Official Paper to be Published Confirming Technology:

In the next days, an official scientific paper will be published in Iran. This is the first time ever, that the Keshe Foundation will receive full understanding and support, as well as being peer reviewed by the leading Iranian scientists. It will go through the whole scientific process of being ratified and confirmed. This paper will officially put the technology of the Keshe Foundation on the map and it will be a major breakthrough in the world of science. The KF team and the scientific team have been working relentlessly, contacting and calling people across the nation who have used the technology, to confirm that the nation is being used as a clinical trial and has shown success.

#### The Nation Itself, as a Clinical Trial:

Normally, when you do clinical trials you have to go out and find patients (and usually pay them), but this time, due to the effectiveness of the technology, the whole nation is coming to the KF on its own. Data is being collected and given to the ministers and officials, so that they can directly call the patients and get direct first-hand knowledge of who they are, what happened, how they were treated. Forms are also being filled in to confirm the results. In a way, the Iranian government has used the nation, who volunteered themselves, using the Keshe foundation technology as a national clinical trial. This has never, ever happened before. At the same time, many Iranians who are living outside of Iran, have used the technology through Iranian channels and are included in the trial. Additionally, in the past few days, non-Iranians were also given the forms to fill in and return it to the officials in Iran, to show that the technology is being

used across this planet. For this reason, Iranian military officials will take the lead in spreading the technology across the planet, but we'll wait for the official announcement. Yesterday, two of the highest-ranking scientists and officials have confirmed that Iran has reached a major new scientific breakthrough. As Knowledge Seekers, we all know this knowledge is already in your hands, and many of you across the planet are using it.

#### Iran Offers to Clean USS Roosevelt of Corona:

At the same time, we are in communication with the White House through the officials and military advisors to the American government. This morning in direct communication with American officials and Embassies, we have offered to clean the USS Roosevelt and help of the 200 Corona patients on board. The offer was made in a very direct way, the Iranian military will attend with all of its own equipment's on board the USS Roosevelt to help the American soldiers. This offer has been officially ratified, and we'll extend it to the American military across the planet. We are not enemies anymore, we are friends, arm and arm against Coronavirus. We expect a positive answer from the American administration and office of President Trump. Lieutenant General Michael Flint has been approached by the Keshe Foundation as a personal advisor to President Trump, for a direct decision by the White House. We are very open in this case, as the Iranian military personnel will attend, and be available to extend their help across to their colleagues onboard the USS Roosevelt, as many of them could die if we do not help. There are 5,000 soldiers are onboard with 200 confirmed Coronavirus cases, and it can spread throughout the whole ship. "Within seven days we'll return the nuclear base, what we call ship, back into the hands of the Americans, cleaned of all viruses, no infections, and no personal being affected by the Corona. "Open play ... play again."

#### Iranian Military with KF Austria Offers Help to Europe:

We will take the same procedure with the other nations. We have already informed the administration of the Austrian government, that this technology will be offered to the European nations, by Austria, through the KF Austria. In the next few hours full support will be offered to the Prime Minister of Austria for all the European nations. The transfer of the technology will be done through direct dialogue between the EU and Iranian military officials. As we said, we all played a game, and now is the time, to benefit by the game we played for the past 10 years, that is, the sharing the knowledge freely across this planet.

#### Gratitude to Ayatollah Khamenei for Allowing to Happen:

I would like to thank the office of his Excellency, and his Eminence, the Ayatollah Khamenei of Iran, for allowing this to happen in Iran so openly. He has made it possible for us to help the rest of the Iranian public as well as those beyond the borders of Iran.

#### If Rejected Go Straight to Governors:

In due course, if we receive rejection from the White House, this technology will be directly delivered to the Governors of Arizona, Florida, California, and Washington, and to New York City. The decision will be given to the governor's of each state, as they have the power to override their president, if he makes the wrong decision through his own

personal vendetta or feeling. The Iranian military and the KF will stand solid behind the American nation and I will transfer the technology across.

#### From Corona to Space Technology Collaboration Among All Nations:

After this, the next step will be the development of the space technology, which will be a collaboration between the Iranian government officials, and most probably the Americans and the rest of the world. We need to build trust and friendship, and we need to build, through Corona, a new direction, a new change for humanity. We have asked for a direct, face-to-face meeting with American officials. within the next 24 hours, to discuss, how, step-by-step, we can build back trust and the friendship, be it through helping American soldiers on USS Roosevelt and many other affected ships. The Technology will bring peace, but the peace has to be understood, that it does not become another step, for another animosity between nations racing towards new knowledge. In so many ways, we have to understand more about how to build on, and how to extend the new knowledge.

#### Future Problems Developing from the Virus:

A scientific paper will be released for general publication by Iranian officials on behalf of the KF within the next days. It will clearly state, what the KF sees as the way to handle the Coronavirus and how to overcome it, and the future problems we foresee developing from virus. In the past, viruses were only viruses, they came, they gave the flu, or they damaged, or killed, and they were gone. This technology has a new effective way of handling viruses, so that we should not loose around 1 million people every winter to flu epidemics. This is a solution to another cycle, for long term problems from viruses. At the same time we have to learn, that this new virus, according to the scientific paper that is to be published in Iran, will explain something very drastic. If the governments do not understand, and if they overlook the long-term processes and damages from this virus, we will have many more deaths in the coming months and years, then actually, from what this virus is doing today.

#### Virus Changes Ca Energy into Ca Matter State:

This virus, as I explained before, has very specific characteristics, which we've never seen before on earth. However, in the span of the universe, we know how to handle it, but for mankind this is unknown. In finding a cell, the virus attaches itself to it and creates an interface with material, and the illusion of atmosphere. As we all know, at the center of all cells on this planet, there is a calcium in the form of energy, and not in the form of a solid. We have seen that this virus, in interacting with this energy, as well as many other parts inside the cell, and has managed to change the energy of Ca into a Ca cell.

Understand that this virus energy, interacts on all levels with the cell, and the strength it carries is so specific, and that strength is the salt of calcium, which means it can change energy into matter state.

#### Cup 1 Prevents Virus from Converting Ca to Solid State:

This is why, in the first Corona pictures that the doctors saw, showed calcification of the cells of the lungs. There are number of problems with this, that humanity has to face.

With the new technology of the Gans, which we provide, we encircle a new dimension. In a way, this encirclement comes from the Gans that we've produced, that in field

strength interaction, we deplete the energy of the virus. In this process, we see such interactions. As our system, due to Cup 1 is set, we protect, and create a link with the energy of the calcium. In this process, we do not allow the virus to change the calcium energy to the solid state.

#### Changing Protocols:

For this reason, a new protocol has been issued by the KF to the Iranian doctors and to all those who use the technology. We are changing the Protocol, so that we can change this virus for good. As we have said, every cell of the man carries the seed of calcium, and we'll manage in one way another, to shrink the energy of the virus, so that those who use the technology will survive.

#### Expect Massive Increase in Cancers in Organs from This Calcification:

But what will happen to the millions of people in China, across Europe, and America, who do not go through this process of using the Gans to deplete the energy of the what we call, the Corona, from this calcium? We expect a massive rise in cancer across this planet in next three months to two years, due to calcification inside the body. Because if the process of decalcification is not done, this calcium energy, which carries the strength of the salt of the calcium, will stay in the body and get converted into a salt in the tissues of the man. We'll see this happen in the lungs, brain, intestines, liver, kidneys, testicles, ovaries, the womb, and the prostate. And we'll see a massive increase in bone and in blood cancer.

#### Depopulation will Come from Secondary Cancers, Whole Body At Once:

If the Coronavirus takes from us a million, we will lose 20 million to cancers. In China, we estimate that about 20 to 30 million have been infected and died. The totally affected numbers may run into 50 million. We expect a massive death rate in China, anywhere in that region of 150, 200 to 500 million Chinese will die of this cancer. In Europe, we expect the same. Depopulation will not come through the Coronavirus, but through the secondary cancers, which will be very aggressive, as the seed of the Corona has already been set in massive numbers. Usually cancers start with one or two cells, but now Corona has made a very large number of these cells. We'll see accumulative and collective cancers across the body of a single person, in the brain, lungs, kidneys, lymph and everywhere else. Because when you say, that you have a pain in your body, it means that every cell has already been calcified, which has to do with your nervous system, somewhere.

#### Decalcification Programs Need to be Run by Governments:

I have given warning to the Chinese government. I have also given warning to the Iranian government and administration, but in Iran we'll run, what we call anti-calcium, or decalcification programs in a very rapid way, in public teachings across Internet and television. People will be able to a 3-day course, or a 3 hour session twice, every week or 2, to totally decalcify the body. In a way, the energy will stay, but the calcification will be removed. This knowledge is unique, and is in the hands of the Iranian government and nation, and it will be set out in a new scientific paper that will be published soon. On behalf of the Iranian KF, I would like to thank the Military, Sepah, and collectively the

Ministry of Health, and all the officials from the office of his Eminence Ayatollah Ali Khamenei for their support and hard work to be able to achieve this, and support the Iranian nation in such a rapid way.

#### First Cancers Already Seen in China:

This is how it sits for all of us, and if we don't clean it up, then every time this virus hits, the cancers will come after it. The first series of cancers has already shown its face in China. Because such a large number of cells have been effected, the body can't decalcify itself fast and it goes in a nosedive. One of the ways to handle this virus will be explained through the Iranian officials. In the past 2 or 3 days, doctors of the KF have been writing about the whole process, including the new Protocols, which will be part of this scientific paper. We can see now, that the Corona can be with us for a long time.

#### Virus Creates New Body Within Itself, Becomes "Virus Parasite":

It's the first time, where we have a virus, that has access and strength at the level of the physical part of the body of the man. All the viruses up to now were energy packages, but for the first time, this virus has managed to bridge a very important position around the cell of the man. What I am about to explain, I have already explained to the Iranian officials. This is not scaremongering, rather it's to explain something very real. The virus has managed to make access at the strength, at the level of the Ca within itself, with the cell of the body of the man to create the calcification. The biggest fear we see, which could be imminent, but we cannot put a time on it, is that, if this process of interaction in the fields, within the structure of the virus, leads to creation of the Ca within the virus itself. This means it will be entrapped within a new physical body, and for the first time, RNA will be making its own DNA. If this happens, what will be the consequences of this growth outside the cell, and would it be a parasite, which we'll never be able to get rid of within the human body. Would we change our life to the new dimension of, in fact, a cell from the virus. Then what will this do? Will it become a parasite, a "virus parasite" inside the body of those who are infected? Would the mankind have the knowledge and technology to overcome it? It will be the first time known to man, that a virus has changed itself into a physical entity. If you have understood and read, even the Book #1, and understood fully from the interaction of the fields, such a creation of energy and gravity point is possible, and is at the strength of the Ca, creation and change of the virus to a cell on its own, within the structure of the body of the man, is a possibility.

#### Virus can Take Over Whole Human Body:

The problem with Corona, is that, it can become the "crown" over the whole human body, and not just on the cells. This is a reality which we have to consider, because it is for the first time we have seen this.

#### KF Has Experience with Lady's Body Calcifying:

We understand this process of the conversion of the Ca fully, because some time ago, by accident, or by fate, or by the "Will of God," the KF had the opportunity and ample time to understand the calcification within the body of the man. What we are talking about is the reality, because we have already handled it, and have seen the conversion to Ca and calcification in the body. If you remember some years ago, we showed you a number of

pictures of the lady whose body was converting all the cells into Ca. So if we get into that position we have the understanding of the process. In this lady's case we were dealing with the calcification of the bone through the blood. Her body was changing everything into Ca. Looking at the photos, do you see the fingers, the tips of the fingers, and especially the ones facing you, we could see the bone, because the blood vessels were calcified, and no blood was coming in, and the body was wasting. We have many videos where you can see all the bones. It took 3 months to reverse and change the calcification in the blood, to no calcification. We know what this virus will do to mankind. It will strip the flesh from your bones and you'll have to watch it. This calcification through the energy transfer, and what we have seen with this virus, is very real. You can't overlook it, nor ignore it, because many of us will start going through this process in the coming months and years. In the coming days, we'll release a new Protocol, that the KF supporters and KS, and people across the world can follow, so that we keep on changing these calcifications into the normal energy of the cells.

#### Strong Warning to Knowledge Seekers Not to Overlook Damage from Virus:

When the Iranian Government releases the official papers, then we'll start building on the true knowledge of how to divert and change this condition. Many of you KS, will not be here in the next few years, due to the damage of the Coronavirus, which you overlooked. But when it touches you, you'll understand. There is a process to reverse this, if need be, and when the time comes we'll release the technology. But until that time comes, it is your responsibility to look after yourselves. We have pictures of the bones in the fingers, if you want to see, a bone sticking out without any flesh. It's never been done before. We know what will come with this, I have seen it. If you want to see the horror of it, no problem, we have 10,000 pictures from this lady, and videos. Fortunately or unfortunately, she is Iranian and is still alive. This photo of her hand, was taken last year in October, 2019. She attended my father's funeral, that's why she is wearing black. We helped her in 2005 and 2006. The hospital in Belgium has the full detailed report on her. You can go and ask them to look at all the videos, MRI's, and the rest of it, and the amputation and the growth of the toe, and the amputation of the toe.

#### Six Different Mutations of Corona Calcifying in Whole Body:

You have to understand, that the Corona is not going to finish when your pain goes away, or you survive it. That is the beginning of the long term pain and suffering to come, if you do not look after yourself properly and regularly until we can eradicate it. This virus has mutated and now I'll explain how much it has changed. Originally the Corona appeared in the lungs with fever. This is the old and original Corona. Then it appeared in the brain, then the kidneys, next the liver, next the stomach, then in the intestines, and then in reproduction cells of the body. In the past weeks, we have seen Corona appearing in the arms and legs. The only place it comes with a temperature is in the lungs, and sometimes in the liver. In the past few days, we have seen Corona creating white marks on the toes and fingernails, as it interacts with the Ca of the nails and deepens it. In the past week or two, we have seen Corona with the pain in the joints, as these are the points where bone marrow comes out, and every new cell has a calcium as a seed, and automatically, it immediately calcifies, creating blockage and pain. So in fact, Corona has

shown its face in six different ways. However, the doctors today only talk about the lungs, due to the ignorance of their knowledge.

#### Massive Pain in Brain from Interaction of Souls:

At the moment, we are handling Corona in the lungs and brain with Cup #1, and all the other places with Cup #2, in a totally different manner. In cases of the kidney and liver, when it's eradicated from the body, we see pain, massive pain in the brain, as this is connected and adjacent to the heart. This pain comes from inside, and is the interaction between the soul of the man (STM) and the soul of the physicality (STP). Where the physicality confirms to the STM, "I have survived," and he has to adjust himself, to accept the other part, that it is not leaving. We understand the process. The people who had the brain Corona in their first phases, speak of a totally different type of pain, then when they have Corona of the kidney and liver, just under the heart.

#### Gans Increases Oxygen Levels, New Protocol:

In Iran, we have had people with between 57% to 52% oxygen levels, and usually they die. But now, without oxygenating them, they are at home with their oxygen levels at 90% plus. This has never been achieved before. The first level means death and is reported as just another statistic, a number, while the second level means a life saved, and the procedure is carried on at home by oneself. We are informing all the Iranians to carry on with the new Protocol, the whole body, from head to toe, during the first week, until the Coronavirus is eradicated. Then seven days later, repeat the process, to make sure any calcification of the cells has been totally reversed.

#### Virus Capable to Replicate and Connect to Different Types of Ca:

Today, the world of science speaks only about the lung infections, but in six months to ten years, they will talk about the millions of people who died suddenly of cancers, strokes, and brain hemorrhages, because of the calcification that came from Corona. If those in Europe and America think they have walked away from the Corona with only a temperature, then they have said, "yes," and "hello," to the cancer of Corona. We see the way in which this virus has managed to mutate itself and go to calcification. In further stages, but we cannot put a time limit to it, we'll use all of our understanding of the different states of the calcium in the body of the man, to create a replication of the virus of itself, in the shape of the operation of the human body. This virus has such a capability, that it has managed to replicate and connect to all of the different types of Ca in the body. The calcium's in the brain are different than those in the nails. And the Ca of the heart cells are different than the ones in the bone and the blood. So in total, it must, and it has to be building a storage bank of RNA conversions to DNA, equal to the structures of the physicality of the man. The world of science has to understand this within next six months, otherwise, there will not be enough land nor men, in some nations, to bury their dead. People will die faster than they can bury them, as we have seen in Italy, where churches have become mortuaries. And in Paris, they tell us, that they're putting the Corona patients on the train on tracks outside Paris, because there is not enough room in the hospitals to accommodate them.

#### Cup of Life Continuously Produces Gans:

I advise you to contact your governments and military, and ask them to talk directly with the Iranian military and the KF in Iran. We'll support, teach and bring the technology to your nations. We'll use the office of the Prime Minister of Austria as a point of contact, to establish a link with the Iranian government, military, and nationals. Wait another 72 hours maximum, by Saturday, and then start the process with your governments for the transfer of the technology from the Iranian military to your own military. If your officials conduct the whole process as we did in Iran, we should be able to bring normality, at least into the life, by the end of this month. There is no way we can do this process in a military like precision in Europe, in the way that it was done in Iran and China, but as you teach everyone to use the CL it will spread throughout the whole country. The CL will continuously produce Gans, and you can literally wash your buildings from inside and outside, and also give it to your governments to do the same.

**Throw Gans Water on Streets Continuously Disinfects Country:**

Everyday, as you produce the CL Gans, you can throw the Water of it on the streets of your towns, and the passing cars will pick it up and spread it continuously, disinfecting the whole city and the country. This is the only way that we can spread it so fast. The CL is not just for you and your own house, once it saves you and you have made yourself immune, then you throw the Water on your neighborhood and nation. As was the old tradition in many cultures, that you would throw water on and clean the front of your house. Now throw the Gans Water on the buildings and the streets, and let the cars and the people walking disinfect the whole city. We don't have any other way. The Chinese, in their showmanship, released videos of themselves cleaning their city stations, but the fact is, they will not reach the passageways, alleyways, public toilets, and the rest of it, nor the libraries and universities. You need to spread the Waters from the CL for at least a year, everyday, and everywhere you walk, after all it is free to produce. This is the only way that we can battle this virus. This is the only way that you can stop this process from developing. We will change the whole of our environment away from this virus.

**Knowledge Seekers Have to Clean Their Cities and Country:**

In Iran, the people have started doing it. The KF KS are now taking this process of cleaning the cities into their own hands. In so many ways, they are doing in it. However, in the West they don't tell you what is happening in Iran, but it doesn't matter, this has become part of your job. This is what you have to do, and this is how we will change the position. The governments are incapable, or don't have the resources to do it, so it falls to you. This is what we said, "the last man standing." You are the last man standing for your home, city, and nation, and as One Nation.

**Bridges of Peace Through the thoughts of Our Enemies:**

When I spoke to the American officials, and I said, that the Iranian Military and KF supporters are ready to go into the USS Roosevelt, you could hear the shake in their voice. They could not believe it. We told you, that we would make bridges of peace, through the thoughts of our enemies, not through our actions of friendship in sharing. You have become the same, so spray the buildings and the cities as you pass by. This CL will not stop making Gans's.

Videos of Iranians KS Cleaning their Streets Themselves:

Rick plays some videos of Iranians in a small village washing the streets and houses of their neighborhoods, on their own without anybody asking them to. Mr. Keshe explains the videos. "Now you understand how deep the KF is embedded in the Iranian lifestyle. People are saying, "we build these in our empty homes, empty places, and with this. we'll disinfect our cities, ourselves at night, when everybody's asleep. Don't forget, the Gans Water does not go away, even after it dries, it stays and continues to disinfect the area." "We saw it in China as a showmanship, The president went to Wuhan City, but he was scared of even taking his mask off. You see the Iranians with the pleasure of the knowledge are spreading the Gans Water across the streets, even in small villages. Now you can understand what other KF KS are doing and can do across Tehran and the other cities. This has become part of you, spreading in the churches and the mosques and the streets and everywhere else, that people by walking over it, will take it and spread it everywhere. This is just one of the Knowledge Seeker, in a small village in Iran."

Plays video ... <Farsi Speaking> <Farsi Speaking> <Farsi Speaking>

If you remember, last week Mrs. Mohammadi was saying that the opposition to the KF was saying, that this technology is only for the Iranians in Tehran. This video is from a small village where, what we call, "a different culture of Iran lives." You can see people in the villages have started using the Gans Water to wash, we only use the water of it, and not the Gans itself. There's another video where you can see that these people are spreading it everywhere. They've taken on themselves, the job of securing their country, their lands, their cities and their own villages, and this is a small village. It's not just their own homes that they are washing, but their neighbors also. This is how it will be, and this is the only way we can overcome this virus. The Gans Water ends up going everywhere, and you just walk on it, and when it rains it'll spread it more. It's beautiful how people have taken things into their own hands in Iran. The government has understood that this knowledge is totally free. This is Space Technology in the hands of a man, on a farm, which understands, he's saving life. And as we said, share it freely. He hasn't just disinfected his own house, "and I'm happy and that's me." He's taking his knowledge everywhere. This is how you should be as a Knowledge Seeker.

If Governments Don't Follow Procedure Hospital Will Fill with Cancers:

In so many ways, with the new announcements and teachings with the Iranian government coming up, and if the European, American, and the rest of the governments in the world follow the same path, we will overcome this virus within the next month or two, and we'll go back to normality. But this normality will be short-lived, and the hospitals will again be full of people with cancers, if the government's do not follow the procedures to decontaminate the body of the man, and the environment, from the total Gans, what we call, the plasma of the fields of this virus. It's not anymore, "I made a Cup for myself, and I'm happy in my house." Now since my keeps on producing, I can clean up the cities, railways, and train stations, by throwing the Water from the Cup around. People will understand, and as we'll all be doing it, it will become a Cup of Life for everybody else.

The Only Losers Pharmaceuticals and Gates Foundation, Planned Vaccinations:  
The financial burden from this virus is so huge, that the governments cannot afford to do the clean up. As one of the Iranian leaders in the meeting said: "We were told this technology and knowledge is free, why do we have to say, no to it? They are not asking for any money, they are giving it to us free and we see the results." It's neither vaccines nor herbal medicines that we're selling, we are not selling anything, it's free. It's a free water, and if people follow the protocol, it saves their lives. Maybe Corona will become the Crown in the friendship and unification of the man. The only people who will lose money from the man in video who is spraying water around, are the Pharmaceuticals, and those who were planning to inject every man with vaccines to control, and then to destroy them. This Water is washing the "Gates of Heaven," for the mankind, and saving it, from those who were planning to introduce and force vaccinations, for it to become the "Gates of Hell." All of their investments have gone down the tube. This will make the Gates Foundation bankrupt. You'll understand soon how. The lawsuits against the Foundation for spreading vaccines, which were deliberate and not needed, will deplete the funds, very soon, from the most rich foundations.

### **Questions:**

Q: .. My love and gratitude for the Iranian people and their leaders for stepping forward for the world.

K- We are waiting for the Iranian leaders to make the official announcements of what they have done and what they still have to do.

Q: Can we use just a small bottle to spray around instead of that big machine that was in the video?

K- This is the Iranians and the love they have for their neighbors, they won't just go and do it in a small way. You can carry a spray bottle around with you and spray everything. Someone said, 'they are spraying Cup 1 on their plants and they are growing so fast, they must have had the virus too.' So you can spray it everywhere. I was spraying in the lift (elevator) yesterday, and spraying it in the lift. In a way, if you spray it on your own clothes, then when you are walking around, you are disinfecting the environment. So spray your shoes and masks whenever you are outside the house. I think washing with the Gans Water will become part of the tradition, because the next cycle of the cancers are so horrible. I can show you some of the pictures of the Corona cancer. We have already started to see it.

What Mr. Keshe Forecasts for Future:

Q: .. What do you forecast for the future of this virus, can humans and the world overcome it?

K- It depends on how we handle it. Very soon, how each nation by nation behaves towards it will set out the outcome. It's not anymore just spraying, drinking, and breathing, the Protocol has changed drastically, because we have seen the progress and the change of the virus, and it's cleverness.

Massive Losses in China Unless they Start Teaching:

We foresee a massive increase in cancer, especially in China. I forecast 200 to 400 million losses in China, due to the cancer. What I call, "election counts" (how many people are counted for voting) will tell. In China, they thought they have eradicated the Coronavirus from the lungs, but it has seeped into the other 5 pillar, what we call sections (organs), and they'll pay heavy for it. Unless the Chinese government goes into a national teaching, and teaches the people, before the time gets too long, how to deplete the energy of the virus.

China Has to go Back to Openness Where the Technology Comes From:

There is one problem with China, they have to go back to openness about where the technology came from, and in that openness, they can share it freely with their nation. As I said, the way the Chinese handled this, by taking the knowledge from the KF, and then saying they don't want it to be known (about the KF), and then changing it, and bringing it out officially through their Military. In a way, they took a Trojan inside their own blood. Now the Corona will grow, and they have nothing for it, and it will go into cancer.

Thieves can only Show to other Thieves:

I'll explain in a very easy way, when you steal a big diamond from the jewelry shop, which everybody knows about, or from family, you cannot wear or show it in public, because everybody knows you are wearing stolen goods. You can only wear it at parties, when you are with a bunch of thieves like yourself, who are also wearing goods stolen from others. So you know, you is sitting amongst a bunch of thieves. The Chinese did the same, they stole a jewel, and now they cannot show it in the public. But now they are announcing that they have cleaned up their places with the Gans Water and everything is going to be opened.

Iranians Proudly Showed and Share the Technology:

The Iranians did it differently, they showed the jewel in public and they are proud of it, and now they are going to openly sharing it with the rest of the world, whereas China still has to hide it. And for that hiding, as you know, sometimes some of these gems bring with themselves a bad omen, and China has got stuck in that bad omen. Or will they go back to the nation, and tell them where this technology came from, and that it's not Chinese, and it's not what they said (about the Corona), and that the nation needs to protect themselves (from the coming cancers). Then if they follow the Protocols, which are set by the Iranian military and the KF, as a joint collaboration, they'll be saved along with Iran and the rest of the world.

China Secretly Sharing the Technology with Another Government:

We hear internally from one of the East Asian governments, that China is speaking about a new nanotechnology they want to give to Malaysia, to help them with the Corona. Doesn't that sound familiar, nanotechnology and the Gans technology? And how come they did not announce it publicly, but are discussing it privately with another government.

Iran Announces it has Reached a New Technology on National TV:

In Iran, we are proud, and we share it proudly, the way we have done with you for years. They don't believe you about the technology, and when you call the press that don't listen to you, or when you call the government, they put the phone down and regard you as a bunch of idiots. Now, the government and military will announce the technology as the jewel in the crown of Iran's science and technology, and deliver it, and show the figures of the empty hospitals through its use. Then your governments will embrace the KF Knowledge Seekers and ask them how fast they can teach it to their nations. We'll talk next Thursday, and the Thursday after, if the Iranian officials keep to their promise. It has been announced in past 24 hours on national television, that Iran has reached a new technology, a major breakthrough. Then our forecast goes two ways, massive cancers in China, and a healthy population in the West.

Up to You to Follow the Protocols:

It's up to you to follow the Protocols. Public swimming pools filled with Gans Water will become a place where you make sure that you are disinfected from the virus. Taking a bath on regular basis in the Waters of a Cup of Life, will support you to get rid of the virus and reduce it. Washing your cities and adding the Waters as part of the city water circulation, and over a few months we'll overcome it. The beauty of this is, that the burden does not go on the national governments, who are already bankrupt, but goes to individuals, as they wash their cities and the streets and the rest. We cannot and will not allow this virus to win, if we unite. And this will bring a lot of benefit to all of us. I would like to share something with you, which I try to teach last week, but many of you did not understand.

White Gans Cu in Cup Life Aggression will Go from the Nations:

In the Cup of Life, many of you, and even in the CL #2, have seen many white Gans Cu in your Cup, which means it will affect the emotion of the man. You will find yourselves as very calm people, and the cities will calms down. You will see that the aggression will go from the nation's, because through the CL we have raised the level of the STM away from aggression.

Spreading Cups Across Planet will Create "Dome of Peace":

In a way, we have done exactly what you did with the Cup when you were sick, but now the nation's sick and it will change. The Water from these Cup of Life's that you throw on the streets, or you wash into your basements, or into your pipelines, they will come out in another way, somewhere else it will change and will bring a new atmosphere. We'll bring a new condition to the planet, which is what we wanted, but we did not hope for it in this way. If you remember a very simple thing, in the Caribbean's, when the Gans was spread with just a few cups, we saw how it stopped a hurricane. Now, you are throwing a CL in your buildings, towns and cities, and you will see what will become of your cities. Gradually, you will make a (plasmatic) dome, and this dome on its own, will have nothing to do with animosity, and "what has been wrong with the breath point, what gave you life, of the planet." If enough of you spread the Gans's in the coming months around this planet, we will create a "Dome of Peace." I told you, I'll get what I want, it doesn't matter how you play the game, we use every opportunity to create peace. Now you understand, when you throw the Gans Water in Sydney, China, Iran, Europe, and

America, you create the dome. Do you remember the dome in the Caribbean's, there were only a few cups, but now you're cycling tons of it. After this we'll see the change in human behavior, because we have elevated the STM through the Cup #1 and Cup #2, and with that, the human race will change to a new course. We will see peaceful nations, as One Nation. We will see the embodiment of embracing the Universal Community, where the humanity reaches a new understanding of his own beauty and his own values.

**MaGravs and Sewer Systems are Spreader of Gans Across Planet:**

Many of you built the MaGravs, now those MaGravs will become the beacons for all of these fields to connect. As I said to you before, we look to make what is best for the human race, that through that, we can make what is best for the rest of the universe. If you understand what you've done, and how we have used you and your body, and if we carry on, the way you are doing now, many of you drank the Gans, and it went out of your bodies, still energized, and into the sewage systems and across the nations. We have already started the process of change. The only difference this time, will be that collectively the human race will accept the new condition.

**Shameful Behavior from White House Threatening Attack on Iran:**

We have seen a shameful behavior from the White House, and a more shameful behavior in past few days in Iraq. We do not expect good news from General Michael Flint, for him to accept the support and help from the Iranian army to overcome the American problems in their Navy and other places. But the nation will override the president, and the president will have no seat as a president. You have to understand, in the time of trouble even the worst enemies step down. The shameful president and his increased deceptions, again we see military moves in Iraq by the US, under the banner of "making ready" because Iran is wanting to attack us, rather, they are thinking that the Iranian army is weak because of Corona, and it's the time to strike. What a shameless man. We'll defend the territory, but at the same time we will help your soldiers. They'll be putting arms down, to the shame of their leaders, 'how can we fight with those who saved our lives.' As I told you, we'll disgrace those who stand in our way.

**Corona Opportunity to Forget Past and Stand United Across Planet:**

In the last negotiations when Obama administration approached us and said, that the Senate will not ratify the "5 plus one" treaty, I gave an interview with Mike Harris and I explained how many senators in the Senate, and in the House, would like to say no, to 5 to 15 million jobs, which will come out of the peace process with Iran. In the time of recession, would you want to tell your people that you are refusing millions of jobs? The following Monday the opposition collapsed, and we got the ratification through the Senate. Now, our call goes to the American Navy, Army, and Armed Forces, your sons and your soldiers will die of Corona, would you like to fight, or would you accept the hand of friendship from the Iranian army and military for its eradication, using advanced Iranian technology, which is beyond nuclear. We'll give you a guarantee, that within seven days the USS Roosevelt will be open to the public, the same way we cleaned at the hospital in Iran. Let the soldiers decide, not the incompetent leaders. We'll bombard the American military with a gift of life, and let's see who has the strength to create more war. We'll stand shoulder to shoulder with the world's military to deliver this to all the

nations, because they can create order and they can reach the people, whereas the governments are all incompetent to deliver, except one. As we always said, armies are men of action and they can deliver. And this time the Iranian army will deliver peace, and the solution for Corona. We are proud to stand, shoulder to shoulder with Iranian soldiers to eradicate the Corona from Iran and rest of the world. You asked me, what I see for the future, I see peace by using the opportunity of Corona, to forget about the past. But the same time, we have to take steps, that the virus will not take a toll on our lives, in the future months through cancers and other things.

Explains Design - How Cup Interacts with Ca Seed:

Q: .. Can I use another plasma at the same time? Let me say it another way, can I reach the virus with CO<sub>2</sub> and Zn?

K- The CL has a structure for Ca, and Mg, that's why it was developed for this purpose. Do you understand, you have the Cu, Zn, and the Nano (N) coated coil. (The following are plasmatic field strength numbers). So Ca is 39 -40. You have to understand the design of the CL. We look at the Ca spectrum from 35 - 49, and take its average around 39 - 40. You have a Cu, which we calculate to be around about 57 - 69, so an average it's about 60 to 63 to 64. As you know, when you have a dynamic system which is created due to the N material inside, not all the polarities are in the same way, as we call it, some are in opposite way, this is something you never understood in the work of the Gans of plasma. In this water, we have a Na, around about 19 - 25, we average it at 20 - 23.

Understanding the dynamic motions in this Cup, if you take the Cu at 63, and minus the Na at 23, you come to around 40 of the Ca. Then you understand, the magnetic (M) field of Mg, or possibly Ca, and Na and the Cu presence will give you the field strength of the Ca, this is how we interact with the Ca seed, which the Corona has touched.

Using Breathing Device with CL:

Q: I made a breathing device, which I made with the CO<sub>2</sub> and Zn, can I use it at this moment?

K- For the time being, yes, you can do, it's emergency, because part of it has the Zn. The best way to do it, is to add 1 or 2 drops of salt into it, to create this near condition of the Ca. You can use the Gans saltwater, from your pot (saltwater in CL before removing the Gans), not just the normal Gans, just add 1 or 2 drops of the Gans saltwater.

Sucking the Energy out of the Virus like Piglets to a Mother Pig:

K- Now you understand how we handle the Corona, and why we are so effective at it, because we have matched it, match to match, and we have linked with it, link to link, we have done everything possible to make it available. In a way, if you look at it, Corona is like a big mother pig with so many tits, and we put a piglet on each tit, sucking the energy out of the mother. In every possible way, we have linked into it. It's a simple technology, you see, to me physics is fun, and it's beauty, because I see how things go. When you enjoy science, then everything is easy to solve. I built this technology and I know every brick of it and where it needs to be fit in.

**Fibromyalgia Teaching:**

Q: I think you misunderstood me, I made the CL and have the Gans of it, but also I have another device, a breathing device I use with CO2 and Zn, for my, I have Fibromyalgia, when I use these two methods together do I make any wrong thing?

K- No, that is what I told you, just put a salt from the CL in your breathing system, you do both, you help your Fibromyalgia and your Corona. Why have you got Fibromyalgia?

Q: I don't know, life I just got it.

K- What are the signs, what is the number of your Fibromyalgia?

Q: ... I consulted with a doctor, she sent me to another doctor, and he gave me this breathing device. I have a pain, everyday, for 24 hours, some pain in my legs, I did all the tests and the doctor said, you are okay, you don't have any problem. You have a mental problem.

K- Have you been tested for Fibromyalgia?

Q: I tested with other things, pineal glands, all of them are okay.

### **How to Test Specifically for Fibromyalgia, 18 Pressure Points, Abuse:**

K- No, Fibromyalgia doesn't show in any of these tests. It has a specific structure of identification. You can ask your wife to help you with the test. I used to test people who would come to me, and they said, "oh, you want to touch us." I said, you know something, you can go and get lost in yourself for the rest of your life.

Fibromyalgia, has 18 pressure points in the body, and if you test positive on 11 of the 18 points, then you have Fibromyalgia. Some people are as high as 18, and they can hardly work, and the doctors end up saying that it's just psychological. It's not psychological.

How old are you?

Q: 41 , from Iran.

K- When did you leave Iran?

Q: 10 years ago.

K- Okay, Fibromyalgia is very easy to diagnose by someone who stands next to you. You need to put pressure on the points at 2.5 lbs/per sq inch, or 2 kg ?? it's best to press from the tip of the finger. The first point to check is at the back of your ankles, where the tendons are. This is point 1 and 2. Have your wife to squeeze these tendons between her 2 fingers. If they are painful, and you can't stand it, don't kick her and don't push people around, it means you have been abused while standing on your feet. That is the first sign of Fibromyalgia. So you have the first two points. The next pressure points are:

3 & 4 : inside near your thighs

5 & 6 : on back of the shoulders, in your shoulder blades, you press those deep

7 & 8 : under your arms on the ribs

9 & 10: in front of your chest near the collar bone,

11 & 12: points by the neck and ear

13 & 14: on the back, in the spine just behind your hips

15 & 16: on your sinuses on either side of your nose

17 & 18: The final points. are very different and change the position. You press on the side of the breast.

Count up the number of points that you felt pain on, and if they add up to 11 out of 18, then you have Fibromyalgia.

Depression, Exhaustion from Everyday Body using Energy for the Pain:

When you feel the pain you want to kick people or you say, "don't touch me, it hurts." Fibromyalgia comes while you're exhausted, because to keep these pains under control takes a lot of energy everyday. These are emotional damages and abuse that were done to you by family or friends, and it happened before the age of puberty, around 12 or 14 years old. Am I correct?

Q: Yes exactly.

K- This creates a psychological depression in the brain, which leads to not wanting to work, and being exhausted all the time, because to service each of these pains, takes something like 10 to 20 calories a day. If you have a 20 calorie energy loss, times that by 18 and that's nearly 400 calorie a day, which is wasted just on servicing these pains. So if you take in 1,400 calories a day, then you're already short by 400 calories, and you're already exhausted. If you are tired and you can't walk, then somebody will tell you that you're incompetent and you cannot do anything.

Q; Sometimes I can barely walk.

K- Yes, I understand. This is the structure with the Fibromyalgia, ask Dr. Mujar, to put you in touch with me, I'll take you out of it within two to three weeks.

Q: Thank you so much.

There is a Specific Process for Fibromyalgia, not this one:

K- The process (here) is not the way, Fibromyalgia has a specific process. I have had people who for 17 years could not even go to work. They had to work two or three hours a week, just to get paid by social services, and then they would spend the whole week recovering, for those two or three hours, just to stay alive. In less than three weeks, they were living a normal life, cooking, and doing everything else. You have to understand Fibromyalgia is psychosomatic, caused by abuse done before puberty.

Fibromyalgia Before Puberty, Clinical Fatigue After Puberty:

When you cross puberty, points 17 and 18 change position to here, if these are your breasts, and the nipples, and these are your last ribs, then you line you line them up, if you are a woman, you lift your breast up, and you go directly in line to the rib, and you pressurize these two points. These, then become 17 and 18. To make it easy we'll call them, 19 and 20. If you have no pain on either 19 or 20, then you have Fibromyalgia. But if you do have pain on 19 and 20, then you have what is known as Clinical Fatigue (CF). Points 19 and 20 come after puberty, and it comes from being subordinate. You have a boss who tells you that you're useless, and you accept it. Or your wife tells you that you're incompetent, and everything else. You work in an office, because now you have grown up, and they blame you for everything, and you know it's not your fault, then you start getting a depression.

Conditions Come Out of Abuse:

Clinical Fatigue (CF) comes after puberty, and Fibromyalgia (FM) comes before puberty, around ages 12 to 14. The CF can come at anytime from the age of 14, to the end of life, whatever that life will be. You can get CF at anytime, because people need to put the bread on the table they accept a lot of pressure at work, maybe the boss is ruthless and he

thinks he's the boss, and you get CF. Or you go into a marriage in which the wife is abusive, but for the sake of children you stay in it, and you get CF. Or you go into a marriage in which the wife betrays you, and you know it, but you stay in it for the sake of the children, and you get CF and all the abuse that comes with it. When you accept, "it is not my fault, but I have to accept everything for the sake putting bread on table to live," then you get this pain on points 19 and 20. Test yourself, because the front part of your body, your breast, is where you protect your heart and your emotional (being), and that's where the pain comes.

Have to Strengthen the Soul and Emotion to Heal:

It took me 10 years to complete this study, and I've mastered it, and I'll walk you out of it. You'll divorce the wife, and start a new life, because you won't stand for the abusive behavior anymore. Most of the children who go through bullying, suffer from long term FM. With FM and CF, you need to strengthen the soul and the emotion. When people with FM and CF walk into your office, their shoulders are bent forward in a submissive posture. In three months, they stand tall, and they won't let anyone abuse them. Your posture is like an animal in the fields of Africa, where the lion picks out its prey by their posture, and so do men. This is why many women go from one abusive relationship to another, because they see the posture, and because of their own problems, so psychologically they bring a hidden FM into their lives. It's the same with a lot of boys and men. This is not the first time we've told you this, that we'll change the moral and the emotion of the man through Cup 1, because we understand full and have tested it through actual cases of people over the past 20 years. Take a picture of yourself if you have FM, and then, go through the KF process, what I call, "FM recovery," and then take another picture, and you'll be at least 2 to 3 centimeters taller. No lion will pick you up, because he knows that you kick. Your prospects, understanding, and your whole structure will change. I've seen couples who have sat in front of me, and then they realize how abusive they've been to each other, because both came from the abusive Fibromyalgia in their background. After 3 months they couldn't live with each other, because they understood how they carried the abusive behavior of their parents, into their partners.

Q: Thank you, Dr. Keshe, for your time. I'm really appreciative.

K- Am I correct?

Q: Yeah, many of the things you said is exactly the same.

K- Speak to Dr. Hassan and I'll sort you out. I'll help you to get out it.

Q: Thank you. I really appreciate that.

K- You're welcome.

Q: .. about the Cup of Man (CM), how should I use the Water and Gans from the CM, and also how can I bare, feel and interact with the fields from the Cups?

K- The CM we'll open it in the next few weeks. Make a CM and keep it at home.

Q: I already made 2 of them.

K- Good. Let me explain to you how things are in two different ways. We gave you Cup #1 and Cup #2. He draws, Cup #1, Cup #2, then he draws Cup 1 connected to Cup 2, we call it, the Cup of Man, parallel.

Plasma Evolution from Fields to Soul of the Creator and back to Fields:

(please follow the diagram in video)

The world of science starts with fields. You need 2 fields to interact, which gives you a plasma. He calls the fields, M (magnetic) field affect, (he labels each field as a 1 or 2) and when they interact they become a plasma, which draws as a circle (labels it as 2) and calls it, "plasma technology."

In the coming teachings, there'll be other combination of two's, when we put, let's say, 2a and 2b, the combination of two's, (2a + 2b), will give us, what we know in the world of science, as Physics. Two plasmas, each created from the interaction of the fields, gives you an atom, which is Physics, before that, they are just plasmas and fields. In the interactions of the 2 two's, which you got from the Physics, and which becomes #3.

Now if I put two Three's together, you get Chemistry, and becomes #4. If I put two 4's together, you get Biology, and becomes #5. If I put two five's together you get the soul of physicality (STP), and becomes #6. If I put two six's together, you get the soul of the man (STM), and becomes #7. If I put the STM together, two seven's, I get the soul of the Creator (8), as in Chinese we call it, ?? That's why the figure for infinity is a sideways 8. In the interaction of this (two seven's) you go back to #1, the fields.

The Cup of Man to Make the Perfect Man in Dimension of Physicality:

Q: Are you going to give us 6 Cups that we ??

K- With 6 Cups, you come to this point, then the rest is understanding of the STM. Man now has reached this point (two 6's), in your structure. But if you understand, in Cup development, you are still here (Cups 1 and 2) with the Cup of Man. Only the Head of KF, and one other person have been enlightened, by this (two 7's). If you understand the operation of Cups #1 and #2, you will just about to come to understand the interaction between the 2 parts of the body of the man as separate fields. That it makes the plasma of the man. Then you'll understand, then we give you the dimension of physicality and the rest. At the moment, we have to go with the Cups #1 and #2, as the CM, because we have to elevate the STM, and elevate the physicality of the man, that both are at the same strength of the soul of interaction, that we make a perfect man in the physical dimension. We have brought your level of emotion, with your physicality. We first increase the emotion side to support the lungs and the brain. In that process we saw the weakness in physicality, which (is why) we brought the Cup of Man.

Three Schools of Thought Chinese, Middle East, West -- All Have to work Together:  
The CM has brought a beautiful structure, we see the Chinese with their understanding of Yin and Yang, are talking about the fields of it and how they interact. The Iranians and Middle easterners, have come up with, 'okay, what is it doing with my physical, I want to see this and that.' The Westerners and Europeans are still in the dilemma of, "how many turns, is it left or right, what things it's going to be." It's amazing when I listen to all three schools of thought, and I see the West is so entangled in the world of physicality, it will take him a long time, even to come to understand the ?? body. And even the Middle easterners have a long way to go to get to the culture of the Chinese, understanding of the

balance of the creation. When you look at the European Chats, they are still talking about the coils, and the Gans and this and that. The Iranians are talking about, I made the Gans, what can I do with it, and the rest of it. The Chinese don't even look at the structure of the Cups, in so many ways, they go directly to what does the field effect have, and what is the Yin and Yang. This is why mankind has to work collectively, and understand each other's level of the soul, that it, in a way, works this way (Infinity Loop from the top to the bottom, combining all 3 together). When I see the European Chat rooms it makes me laugh. We made nearly 30 Corona Chat rooms, and when I look at the Arabs, they say, "we don't know what it is, but we'll try to be part of it," but some of them understand a bit of it, but there is a Chat, so we have to talk and be a part of it. The Iranians are at it, and it works, let's get on with it, so I can save my physicality, I don't care whatever it is, what terms they call it, it has to do its job. Then you go into the Chinese, they say, "what effect does it have on the soul."

Chinese Say, "It's our right to steal" - Iranians Helping Enemies :

In the Chinese QQ translations, some of them say, "It is our right to steal. It is our right to use the KF technology, they've given it to us." Yes, but we gave it with respect, it has to be respected, not to be stolen. As the Iranian official said, "He's giving it to us, a free gift for our people, how can we reject it?" Chinese said "It's a gift, we steal it, he doesn't need to know its his." In 2 or 3 years down the line, we'll see the survival rates in Iran and those of China, and in Europe. "And as is our tradition in Iran, in the time of war we do not fight, we help our enemies. We have even given a helping hand to the American Navy to get better, that maybe when they come back, we can beat them nicer in the wars, if they decide to battle that too." We don't help the Americans out of our weakness, we do it out of our love and respect for humanity. But if they want another beating, it's very free. It will be done so easily. But this time it'll be a beating with the love, not with arms, with sharing of the knowledge.

The Condition for Help - Signing Peace Treaty between Armies Across Planet:

There is one condition, that the Iranian military forces will put, before supporting and helping the other nations. We'll insist on the signing of the peace treaty between the armies across the planet, when accepting the technology. The prerequisite is, that the armies have to work together. Don't forget the Iranian army signed such a treaty with the Romans 2,500 years ago, and nobody knew, which army was which. We are used to it. We were running an empire, long before you could find a village (in Europe), to call it home.

Africans Requested to Join Chat Rooms to Share Knowledge:

Q: Good morning, Mr. Keshe. This is Gatua. I have a question.

K- Yes, Dr Gatua, before you say anything, I have to tell you something very strange.

How come you have so many supporters and so many students around you and in Kenya and none of them are on African chat lines? Q: They don't have a telephone.

K- Your classes are packed with people. They should be there to share knowledge. Open a local Chat room so they can talk to each other there. Get them talking to each other.

Q: I'll do that.

What is Appropriate Salinity for Cup of Man:

Q: What is the appropriate salinity for the Cup of Man?

K- We are back into that same thing. You decide.

Q: I've already decided but I may be wrong.

K- So then you'll turn up looking Chinese if you're wrong. If you get the salinity right, and everything else right, you might look American white. So, what difference does it make? You are still a human, you have a soul.

Why Woman is so Beautiful, But "Stupid":

K- How could you be wrong, did God make a mistake when He made the man. But he still got some things right, huh? You know, Dr. Gatua, there is a very old and beautiful joke in Farsi. A man said to the God, "Why have you made the woman so beautiful?" God said, "Because I want you to enjoy the beauty." The man says to the God, "Why did you make a woman so stupid?" He said, "Because then she can love you." So we give the beauty, but it depends on how you want to appreciate it. You have to change things according to what you understand. As he said, she's beautiful, but she's stupid. And the God said, I made her stupid, so that she can love you. So let's see. Do we love our soul or do we stick to the physicality, to love what is physical? As I said, it depends on the intelligence of the man. You can make any shape, any color, any salinity, but what do you expect from it?

Man Creating a Soul Connected to Himself, Cup of Man - Schizophrenic:

The Cup of Man carries a soul, did you bless it, or did you just push the wires in to see what you can make? The purpose of making the CM, wasn't just to make a Cup. The purpose was to teach man to have respect. This is the problem, when I gave you the CL, I explained to you, that it has a soul. In your lives, you give life, a physical life to your children. I allowed you to do that, with the Cup of Man, with your own eyes. You have created a soul, and you are responsible for it. But you're so physical, that you look at the Cup as just another thing, to save your life from the Corona. We were finished with the Corona and the "Cronies" of it, with Cups 1 and 2. I've brought you to a level, very much, very much ... one man making two Cups, and one man making two "Cup of Man." One physicality giving life to two hidden souls. In the life of the man you call it, "schizophrenic." You have to understand, the Cup of Life, and the "Cup of Man." You're still looking for everything in it, except understanding the truth. This is the soul of emotion (Cup 1 on right) and this is the soul of its physicality (Cup 2 on left). It has life, it's your child (draws an Infinity Loop connecting the two, and arrow down, creating a child). You have created it. And in essence, its soul is connected to your soul. Do you want to play with it, you're quite welcome. But be careful of what it can do to you, when you're dishonest with yourself and the others. You will understand soon, where you have become the other Cup (draws a circle around the other 2 Cups).

**If We Create 7 Billion Souls:**

We say in an old proverb, "Do to the others as you like to be done to you." Understand what a CL is. You need to understand the Cup of Life, and you need to understand the Cup of Man. In the coming time, when we open the space to you, this is what you will be facing with (draws a circle around the CM), and it's the truth about yourself, who has got

to be interacting with it. We'll start teaching the Cup of Man, post Corona, and not because of Corona. To us, Corona is complete, it's finished. But because you're so physical, it was easy to bring it in. In fact, if every man makes one Cup of Man, we'll have 7 billion physical souls, and 7 billion souls of the Man, who have trust, to interact with. Very interesting if you understand it.

Azar: Mr. Keshe, I have a question.

K- You never stop asking questions.

Q: Can you help someone else with the Cup of Man or do they have to do it themselves?

K- The Cup of Man has to be made by the man itself.

Q: But can you teach them, help them?

K- Of course, we teach you. Don't you teach sex education to your children? So, this is a soul education.

Q: The last time in your teaching, when you were teaching Cup of Man you said, we elevate the STM so that it's supporting the physicality? The soul of physicality, that... in which the virus of the STM is very rare. Does it mean, once the soul gets elevated to the point that physicality is supporting the physical soul, the virus can never affect us?

K- Why are you afraid of the virus?

Q: I'm not afraid, I'm just asking.

#### **Having the Virus is Like Falling in Love:**

K- Space is so full of it (viruses), that it's not going to affect you. Have you ever been in love? Q; Yes. K- How many times? Q; I don't know, Mr. Keshe.

K- You are a woman. Women fall in love day in and day out. It depends on what shoe they're wearing. But in reality, love is a virus. It has no physical dimension. It's us who's has to handle it. One of the best viruses we know, is falling in love. How do we manage it? How can we let it affect us that way. How can our soul allow us to share our heart, the physical part, with somebody else? So, if you understand the totality of viruses, we are born with it, and because of it, we reproduce and we enjoy the existence of the others. So what's your fear?

Q: I wrote down your last teaching, word by word, and I'm decoding all this because the physicality...

K- Yes, but in the physical language. Understand it in terms of the Soul of the Man.

A- So I let my soul understand it then .. ?

K- I don't know, that's your problem. That's your understanding.

#### **The STM is the Only Elevator of the STP, Cup of Man:**

K- Yes, we have Mrs. Mohammadi from Tehran.

Q: Does the STM need the STP to elevate or not?

K- The STM is the only elevator of the STP. There is no other way to do it. And in the process the Cup of Man is set, to set the scene for that, for the man, if the man understands. If you look at the Cup of Man as a Cup of Man you will not understand anything, it's just another cup, another game to play. But if you reach the soul of the Cup of Man, with the STM, you will find the mysteries of life.

**Fish Tank - 2 Drops Water - Creation; like Womb of Mother:**

Very soon, we will show you how easily the life and the soul can be created in the dimension of physicality. Where I will give you a drop of water, and a fish tank, and when I drop the water into the fish tank, through the emotion of the STM, you can have a fish, or you can have yourself a cow. Where for the fish, the tank becomes a place where it lives, and for the cow, it becomes the womb of the mother, as a cow. This knowledge is hidden to man. I'm training one Chinese man to be able to do it, because the Chinese understand the essence of the Yin and Yang. If we give it to the Westerner, he would like the fish to eat. If we give it to the Middle Easterner he would like to see how fast it grows, so he can eat it. This gift will come from a Chinese man. Where we add a drop, and from that drop we create a life. Do you remember, I told you, I'll create a condition, so that you can see the fields, that others from the universe will come. This will be your first training, that you can see it, so that when you go into space you don't fall for magic. I was planning to show this in the Tehran conference.

**Meat Eater vs. Vegetarian:**

Q: Mr. Keshe are you sure you want to teach this to a Chinese? Because Chinese eat meat, but the Indians don't eat meat.

K- Yeah, but they eat more vegetables, and more souls. I prefer a meat eater to a vegetarian. One animal carries one soul, but each grain, on each stem of rice has a soul. You need a thousand souls to fill in a bowl, to feed a man every time. It's your misinterpretation and understanding of the life. I stay with the less criminals, and sometimes it's better. But there is more criminality in meat eating too, which I don't show you. Maybe you want a drop, that it becomes a grain of rice. In that drop I'll give you the soul, it's your thoughts, which gives it the physicality. That's the difference between the man, and a Cup of Man.

**Conference in Tehran - Still Possible:**

Q: Mr. Keshe is it possible to do the Iran conference this year still, or no?

K- We have to ask the Iranian government. We are ready if they're ready.

Q: We still have 17 days to go.

**Medical Tourism in Iran - Cure Coronavirus:**

K- We can curb the Corona very easily That's what I said to some officials in Iran, we have managed to curb the Corona, and anyone with Corona can come to Iran for medical tourism.

We'll save your lives, just come to Iran, we'll cure you, and you can go back. Tehran will become the only city in the world open for business with no Corona, and if you have it, we'll accept you with the greatest of the pleasures. Health tourism for Corona in Iran will bring the most powerful men in the world, trying to save their own lives and their families. Tehran is open, and it'll be the only city, in the only country, which welcomes anyone from around the world with Corona to come. Because we have managed to crown it. We will announce it soon. Tehran will be open for international travel for people who are sick with Corona. The richer you are, the more we welcome you. We have to

recuperate some of the money that we lost with the sanctions, through your lives. At least we can give to our people, so they can start developing a better technologies for the others to enjoy.

**To Announce Iran is Open for International Travel:**

In the next few days, we'll announce that Iran is open for international travel, because we know how to handle the Coronavirus. There will be no quarantine, and you can come and go the way you did before, just follow our procedures. Tehran airport will be opened in the next few days, and we'll welcome anyone from anywhere around the world. We'll sterilize you inside the plane, and give you a Cup to make sure you don't catch it, and don't give it. And if you have it, we'll contain it. I told you, I'll bring Iran, to be the crown jewel of Science and Technology. Now you need a jewel to find, and then crown it, and not to find a jewel to crown, the crown with it. We'll announce very soon, we are open and back to normal, right across Iran. Give us a few days to clean up, and we'll see if we can keep the 19th KF Tehran Conference open. Instead of putting so many people on trains leading outside Paris, why not put them on a plane with a \$1000 or \$10,000 each, to spend on holidays in Iran. We'll treat them for you, and send them back healthy. If any Parisians want a ticket to Tehran, you're quite welcome. We'll even accept people from the White House.

Q: Can I use the CM, if for example, my wish is to feed myself and elevate my soul. During sleep for example, can I put Cup 1 on the head side, and Cup 2 on the leg side, of the bed?

(no answer ) Any other question ?

Q: .. Of course, I take all the precautions with this virus, but I do not have hate or fear about it. I feel that if I am receptive, and I accept it as a part of the universe, and I'm not aggressive towards it. I think it cannot attack me, if it has a soul, and if this soul, is like me, receptive and welcoming, and no animosity towards it, maybe it would pass by me, because I'm not reactive. That is my first question?

**Old Testament Passover, "Sacrificial Blood" Over Door - Same as Gans:**

Secondly, is that the historian of the Egyptians (this was the Jews in Old Testament), when in the of plague or illness, they put the markings of the blood of sacrifice on their doors, and the illness was pass their house.

K- Why-why-why stop, why?

Q: Because of the spiritual force...

K- Oh no, oh no, come on Mrs. M., you should understand the symbolism of it. If you understand the work of the Gans, and the body of the man, having a Gans. What do you do now, when we tell you to spray your house with the Gans's? Isn't that the cross of blood over your door?

Q: Yeah, probably yes but I'm talking about this...

K- No, no because symbolism in knowledge has to be understood. Because the blood is a Gans, it is at the level, that it absorbs, it interacts with the virus, with the plague virus. You are doing exactly the same thing, when spray the Gans in your home. This is why I

tell you to throw the Water of the Gans on the streets, and wash your buildings with it, why? You don't need to sacrifice an animal to do it.

K- Now do you understand?

Q; Sacrifice is also giving food ..

K- No, no, its not a sacrifice. We are talking scientifically, the blood is a Gans state, and the virus needs a protein to attach itself to. So when it's got a free food there, they're there, and then it devalues to the energy of, whatever is there, the building or whatever, then it loses its power. That's what you do with your Gans's. That's what you do with the Gans's on your body. It's not, what you call it ... it's understanding what it means. What it does?

Q; What I mean is, how about the spirit of a person ..?

### **If Afraid of Viruses Do Not Leave Earth's Atmosphere - Space is Full of Viruses:**

K- First of all, let me tell you something, you said something which is very alarming, but in a way, very important. You said, "we cannot be afraid of viruses, and this and that," yeah? If you're afraid of viruses, please do not leave Earth's atmosphere. Stay a human and chain yourself to this planet. Outside of this planet it is all viruses. So to begin with, never become a "man of space." Then, if that's the case, and you become "Man of Space," viruses are part of the environment. You have to understand how you deal with the viruses, and with the interaction of the STM with the STP of the Man, that it does not create an absorption or interaction with the fields you don't need. But still, we need to feed ourselves from these viruses or fields. Do you understand? So if you say, "I'm afraid of viruses." I've never been afraid of viruses, because I know, that you cannot be a "Man of Space," if you're afraid of viruses. They say, if you can't stand the heat, don't get in the kitchen and don't start cooking. So if you're afraid of viruses, don't even try to get your soul out of this planet, because out there, there are nothing but viruses, which are energy packs.

### **Feeding Ourselves with the Energy of the Viruses - Not Immunity:**

Q: Can they be used for survival?

K- Of course, you are doing it now. What do you do with the Gans Water we give you? You wash your body with it, as you do, you take off the virus, in bits and bobs, and you feed yourself with it. That's why I keep on telling you to keep drinking the Gans Water. You take the energy of it in so many bits and bites, like eating bananas and then strawberries. Do you taste, feel, or crave for something when you drink the Gans Waters? Or do you feel satisfied and you're not hungry. I used to eat a lot, but in the past few weeks, I am drinking so much Gans Water, that now I eat very little, just in nibbles. I was thinking yesterday, 'my god, if I go on this way, I'll be as thin as anything,' because I eat very little, whatever is on the plate. I try to have a nibble, just to have that energy to carry on. Understand that you're using the energy of the virus, to feed the rest of your body. You're not making it immune (to the virus).

### **This is Why We Recover so Fast from Virus:**

K- One of the reasons that we see such a fast recovery with this Gans Technology, is because we use the energy of the virus, which is in parts, and because it's already digested energy, as it goes through the stomach it feeds the body and brings fast recovery.

It's like if you have a huge stone that you cannot move, but when you chop it into pieces, now you can build buildings with it. The building blocks of the life of man.

**I Carry the Knowledge - I Have No Wishes:**

Q: I am present with your wishes.

K- I carry the knowledge, I have no wishes.

Q: For humanity, for saving us.

K- You are saving yourselves. You see, I didn't answer the gentleman from Romania (about putting the CM at the head and feet during sleep), because then, there is a lot of speculation about whatever. Use your intelligence, and do not try to formalize or set a framework of what has to be. Many people are accepting, and doing different things with the Cup of Man, but it needs a man, to understand the Cup, not just doing something for it to become a gimmick. It's a big difference.

Q: It's a new experience for man, not to be in a framework or whatever.

K- It's a new toy.

**When Asked for Spiritual Advice - Prayer, Meditation:**

Q: Yeah, another thing, what about giving us some spiritual advice, some special practices, or prayers, or meditations, that if they are sincerely applied ...?

K- You're talking to the wrong person about meditation and prayer, who am I praying to? What am I giving? Or who am I meditating to? If you spend time with Gaun Lin (GL), she spends hours meditating. I don't know how they are meditating, but Chinese spend a lot of time meditating, and I don't understand what they are meditating on. If the time and the place is right, even when they sit on the train, they are meditating. But, what is the meditation? What is the understanding of prayer? Who do we pray to? Who do we give to? We give to our own soul, we elevate our own soul. If you understand the truth, now. Who are we giving to? Who are we praying to? Unless we give to the souls who created us, or brought us joy? Or brought us life?

Q: If I can express my feeling, it is a kind of getting inside myself, without the noises of my physicality, and that opens me to a bigger, infinite space, and then I get things differently.

K- Let me, I'll bring you an expert in this, just wait one minute. GL are you there? Just listen to this one. ... GL you spend hours meditating, every time I talk to her she says, "oh, I was meditating." What does meditation mean for the Chinese? Or in your way?

GL- Okay, although I spend time on that, but maybe I'm not a good meditator, because I..

K- How long have you been practicing meditation?

GL- I just occasionally sometimes when I ..

K- Everyday I think?

GL- Yeah, if I have time, I do. But the method for me it's just to relax and to feel my body, to listen, like something pumping in my head, what is there. Just like an observer of your thoughts, observer of your body, and then I calm down. But I know I'm not really good at that. I know a lot of people who go through meditation and they have a lot of achievement. They free their soul. So actually, I'm just a just a very, like a lower primary school or kindergarten for that.

K- But you spend so much time on it?

GL- Oh, yeah that's because I'm the stupid, that's your idea for women, right?

K- Is there anyone on the Chinese QQ, who can explain this?

GL- Yeah, I can translate and ask for somebody if they want to pumping up and to say something..

K- Let me explain, when you call GL and there is no answer, it says she is busy with something. You call back an hour later, and still no answer, and then 2 hours later, she says, I was meditating. So you get used to it. The Chinese are forever meditating. I have never known a nation with so much meditating. Is there any response from the Chinese.

GL- Somebody said, this is a cultivation way in Taoism. It's also in Buddhism and Confucianism, they all try to mediate, this is the way they try to communicate with the soul. When you are calmed down, then the soul is going to pumping up.

### **Understand Real Life, Many of U Community are Energy Packs -Fall in Love:**

K- A lot of Knowledge Seekers have to step up and understand more about the real life, not the physical life. Space will become a very comfortable place. As long as you are afraid of viruses, do not enter the Universal Community, because a lot of them are energy packs, or what you call viruses, but they are lovely viruses. You can even fall in love with the viruses. As somebody used to say, can you imagine that? We already know that virus, we call it love.

K- GL is anybody there, or are they shocked?

GL- Yeah, I think they are more shocked when you said, you are going to teach a Chinese guy about how to create a creature, in the fish tank.

### **Already Created a Brain in Fish Tank- Don't Become a God or Magician:**

K- We did that already, when one of the KS created a brain in Barletta, Italy. Don't be shocked, look at it this way, you have a womb of the mother, and 2 drops of water create the life, we call it a child. What is amazing, is that, it's is not a shell, or a yolk, that you crack and then a sperm gets in it, and then something else. It's the interaction of 2 liquids, where, in the liquid of the womb of the mother, it takes shape. I give one part, and the tank gives the other part, and the interaction of the two creates life. You see, through your lack of knowledge, I become God, and a magician. But if you understand this, no one can be a magician in the universe, that is why I explain it to you so simply. When you look at the operation of life, the egg is already inside and part of the womb, in a way, it is made of it, and the sperm enters, and the whole lot starts operating as one. When you give me a tank, I add that (??) something to it, and the whole thing becomes a womb, and the (??) created.

### **Particles Formed in Clear Water - Energy Converted to Matter:**

It's interesting how knowledge is coming up in different things and ways with the KS across the world. A KS wrote to me recently, he said, "Mr. Keshe there is a problem I have discovered." I said, it's not a problem. He said, I know, but I want to do more realistic tests on it. He says, my water has turned parts per million, particles, but when I put Gans Water in it, it becomes 44 or 40 parts per (million) particles. He asked, 'how does this happen?' I said, very easily, you converted the energy of what is available in the

water, into matter. This is exactly like what the virus does. Now they are going to do a scientific test and come up with a result. In a way, we enter energy in a water, and other particles inside the water convert, by energy to what ... it's exactly what Corona is doing. It's an Iranian scientist, and we'll see what he comes up with.

**First Time to go Below Nanometer to Pico Meter - Breakthrough by Iran:**

We had a report from a scientist in Iran 2 or 3 weeks ago, stating that for the first time they had gone below nanometer to Pico meter. Up to now, nanometer was our achievement. Now it's been assigned to an institute to have it confirmed that we have gone below Pico meter. We know that they are there, but we don't have machines to go deep enough to see them. But now we saw below nanometer, and we'll go to Pico, and then below Pico. In fact, is the clear water, still carrying Pico materials, which has given an environment, and then becomes a particle? We are converting energy in Pico, to matter state, in that ... by giving energy back to itself. I told you that if the world switches to peace, and the finances that were put into arms, now goes towards the peace work, mankind will not have enough time to explore every avenue of our life and existence in the creation of God across the universe.

**Convert Military to Peace, American Bases Surrounding Iran - Warned:**

As I said very recently, and I'll repeat again to the American administration and government, especially to the state of California. If you take the state of California, out of the United States, on its own, it becomes the 8th largest economy in the world, and the US's rank as a country, would fall below 15, more or less. Because of a lot of negative, and other positions which California creates for other states. Now that we have reached a peace condition, many companies in California that were involved in the development of weapons technology, arms, and everything under it that they call defense, will be without a job. That's why, as Trump said, "we are getting ready, because Iran is going to attack us," when actually, he has to find another war to keep these companies in California and the rest, going. If you remember, as it was beautifully said, a map of Iran was shown with all of these American flags, as bases, surrounding it, and then the president says, "Iran is planning to attack the Americans." Who is it that came 20,000 km to be caused to be attacked, and we still don't attack you, because we are not animals. We are a mature nation. We have been told that there is movement in Iraq by the US, so I spoke with our American guys yesterday in the US, and they said, 'yes, our plan now, is moving, because, we think Iran might attack us.' I said, no, we are not stupid. You think that because Iran, through Corona has lost some of its military and there is a weak point for you to attack, but be careful you don't get burnt. The situation in Iraq 6 or 8 weeks ago was just a taster, this time don't play with the fire, but again it is the same situation.

**Offers to Convert US War Industry into Space Development - Huge Leap:**

We are looking for the maturity of the man. All the people in the Navy, on the ships and planes, have to go home, and when they do, they'll carry the Corona with them. We are prepared to help the Americans, to "de-Corona-tize" them before they go, even the ones in Iraq. We'll open up so much, the hand of peace and love from Iran, that we'll put the American military forces to shame. We do it because of our strength in both science and weapons technology. I speak very openly to the members of the White House, and extend

the hand of peace. Let's save your soldiers and your ships, not only in America. As I said, I'll enforce peace, even if it means by writing off nations, not the people, but the rulers. Try to understand that what we call a peace dividend for humanity, means that we'll use all of these scientists across this planet who were involved in military and defense, or whatever names you give them, to develop technologies for peace. Now that they can't threaten each other anymore, or sell anymore weapons, they'll be used for space development and everything else. Through this process, humanity will evolve more, in less than 2 years, than what took more than 20 billion years in the life of this planet. Then Mrs. M will not have a fear of viruses when we go into space, because we'll understand and analyze them, and know how to deal and live with them.

**Iran has Taken Superiority in Handling Corona - Holds Out Hand of Peace:**

The message today is very clear, Iran has taken superiority in dealing with the Coronavirus, and we'll use the Iranian military forces to spread this knowledge across Iran and beyond its borders for other nations to enjoy. We put out the hand of peace. We do not need your generosity, we'll give to you so that you can stay in power as governments, but at the same time, free your nationals from what is happening now. And we'll share the technology freely. Iran is a peaceful nation and its technology belongs to humanity. We'll spread this technology within the next few days, across Iran with the support of the Iranian army, because it's the only way it can be done, so that we can reach the whole nation and be able to secure all the cities.

**If Rejected Offer goes Directly to Save Soldiers and US Governors:**

In Iran we are used to using our military for the prosperity of the nation, and we'll bring it to the other nations. We are not going to develop a condition that we all suffer, rather that humanity becomes peaceful that we can enter the next step with the technology. We expect a positive response from the White House or lieutenant Colonel Michael directly, as you know he is the only advisor that president Trump accepts, and we have put a message to him. If that doesn't happen, then we'll reach the USS Roosevelt directly, and its chief, to secure its people. We have the means to do so, with peaceful intention, and peaceful application. The same applies to the Governor of Arizona, and California. We'll change the course directly. We'll break up the animosity through friendship and safe conduct. There is only one answer, and that is, that we work collectively with the armies to eradicate the Coronavirus, and to bring a new condition of peace across the world. I stand shoulder to shoulder with all the military forces of any color and race, as long as it serves the nation and humanity.

GL- Can I read some feedback from the Chinese? About the meditation, somebody said, all of matter has the spirit, has the life. Another said, meditation is the practice to link with your soul, to have a call with your soul. Somebody else said, my experience with meditation, is a deep inside view when the brain calms down, and the release, and became emptiness, and the inner awareness starting to expand. Another said, to meditate is to expand the soul, to become the same size as the universe, to unite as oneness, then the universal energy becomes oneness status, and then you can download it. ... To feel your emotions, .. do not react to it. .. I agree with somebody's words, they said, Iran is the best nation to open this peace technology to the world. I quite agree with that,

although you tried a lot with China, but maybe Iran, as you said, Iran has the key, the Iranian nation has to accept the key, and then open the door of China. That is what my opinion is.

K- Can you explain to us the discussions in QQ regarding the Cup of Man, how they look at it. .. What do they talk on the QQ regarding the soul of the system? You had it on the QQ this past week, what has been talked about?

GL - They are trying to understand why some parts use the Nano wire and the salinity of the different caps.

K- No, I am talking about the energies, what do they talk about the energies, the Yin and Yang in the Cups.

GL- Actually I didn't see much discussion of that, but I have some understanding ... we also think that the STM and the STP, can create the fields, yeah, as you said, it must to create a soul, so we create a soul of the same strength as our soul, so that we can communicate with it. And today you were talking about the "Beautiful People", so that's what I understand, maybe you'll find that inside you'll have 2 souls, and you can talk with the other soul.

K- Can you ask your QQ people how do they see the balance of their fields as a Chinese? And in a Cup of Life, because other QQ's who are involved in the work of the soul and the Cup, have been having very deep discussions going on, on this matter.

GL- From where?

K- I'll give you the QQ to go to. You are not the only place I talk to.

GL- Ah, here there's not much people discussion about that.

K- Go into the Taoism Chat lines.

GL- Taoism chat line? Where?

K- Yes. You should find it. They are those people who've been around us, and they are considering the Cup of Life with it.

GL- I didn't know about that... Interesting. You don't understand Chinese but you are in a QQ groups which I don't know about...

K- Because they explained to me how... you know with the Taoist groups we met with a lot of them... and they have opened the Chat lines, and they still follow the work of the KF, and they are discussing it, yeah.

GL- Can you invite me in?

K- No, if they wanted to, they would have invited you in. They are looking at the Keshe Foundation's work and Taoism. As you know they always said the two are very similar.

GL- Yeah, yeah, that is what I feel also, yeah.

### **Chinese Taoist Groups Find Confirmation of Taoism in KF Technology:**

K- Yeah, but Taoist people always looked at the KF as a confirmation of Taoism.

GL- Yes, for them, they only had the older mystery theories, but not many things can be like, you can see and show. I also, was learning a lot from other groups of Taoism. It's very interesting the more I learn, the more I think it's the same. Just as you say, it's the teaching from the custom, maybe 5,000 to 6,000 years ago, and now you have teaching in a new modern, scientific way of the old Taoist and more details.

K- And the Taoist groups understand this. They think they have found an answer to many of their long years of questions.

GL- Yes, actually that's why I introduced this to some people and they find it easier to understand you, if they really know what you're talking about.

K- Yeah, because Taoism believes in Yin and Yang, and a balance of the two. We had many meetings with them, and they see the knowledge with the technology as an answer or, what you call a Confirmation.

GL- For what they learned from the books, or from their masters. You are totally different, like the new way to explain it so easily, that everybody can understand. Because if you read the old books, for us, we think that's the book of the God. Nobody understands because they, you know, for all of your theories (teachings), they just use several words to describe all of it, the whole of plasma. They do it in just maybe 20 words. They explain everything. But if you just read those words, they are just words, they don't have any meaning. But if you hear yours, you are explaining how plasma is working. We'll come back and say, exactly. That's this, in very simple words. What if you planned the whole world, how to run.

K- The Taoists in China, When they come in touch with the teaching of the foundation is like, that they find the missing links.

GL- Yeah, that's what I always say. That your teaching is linked to the ancient and the modernized, links the West and East, and links the Earth's civilization with the Universal Community civilization.

### **Mr. Keshe Met Many True Taoists in China - They Understand Cup of Life:**

K- Thank you very much. So what do your people say? Let me explain to our listeners. We had many encounters and many beautiful meetings, and we made many friends with the Taoists in China, during my stay. .. The more we work with, and the more contact we have with the Taoist leaders and key people, the more we understand we are talking the same thing. In places where we have met the Taoist groups, especially in Beijing, and in the other places, they are adamant, that the technology has to be explained to the Chinese people, because they will understand it, as it's part of their culture. The groups that work with the KF knowledge, have gathered a lot in past 3 or 4 weeks, especially with the Cups. The Cup of Man was a point of mystery for them, but now it has been unraveled. They understood a lot, and it has affected them a lot. If you look, the 2 Cups are the Yin and Yang. One has a weakness, which the other one covers. And one has the strength, which the other one has to give to. But at the same time, both wear their weaknesses and their strengths, that the interaction, between the four, in a way, what we call Yin and Yang, or gravity and "magnetical" (M), creates that condition of the balance between the Cups, the Cup of Man. This is what we have with the physicality of the man and the STM. The STM in the brain, has a very powerful strength, which leads to the creation of the man. But it needs the STP with its weaker soul, to be able to expand itself, and to manifest the physicality. At the same time, in its strength, it needs to receive, which uses the STP and the actual physical body, to maintain that position of receiving the lowest, that it can give more, of the highest. In our stay China, we came across many true Taoists, and I've given talks to many Taoist groups and teams, and individuals. They understand the culture of the KF and the teaching in a totally different manner. It's like a fulfillment of what they could not understand. And strange enough, the Military, took it the wrong way. But it's okay.

**The Protocol Makes no Difference for a Pregnant Woman:**

Q: How are pregnant women to behave in regards to Protocols 1 & 2?

K- The Protocol does not make any difference for a pregnant woman. It's the fields of interaction, if the Coronavirus is there, and has no... no what you call it...

(cut off by Rick, he's not hearing the program .. ) ..

K- Okay no problem. I have to go into a call from Tehran. It's urgent. So I would like to thank you for today and hopefully next week we'll have a better news. At the same time I hope today we learned a lot and we'll see what will come and how will... this thing will take shape. Thank you very much.

This has been the 322nd Knowledge Seekers Workshop for Thursday, April 2nd, 2020.  
See the 322 KSW English Transcription, it's over 30 pages.
