Introduction

Many of us sincerely want to end wars on this planet, but how can we if we don't truly understand how they are created? In this summary Mr. Keshe has revealed to us the hidden causes of many wars, and especially now, what is going on in Ukraine. When we saw the Pope rushing off to the Russian embassy the night before the conflict started, most of us believed what the media told us, that he was on a mission of peace. But now we find out that the truth is quite the opposite.

It was said, that we as Knowledge Seekers (KS) will start to rule this planet through our souls. In a way, we have a responsibility to understand a situation clearly, and then use our souls to create the fields needed to come to a correct balance. It doesn't matter if we are a housewife or a politician, our souls are equal in their ability to change the conditions on this planet. So please, everybody, do not be afraid to read this document and understand the truth, so that when we make our intentions together to bring peace on earth, it will have tremendous power. We are all equal, regardless of what we are being told.

The truth of the Pope's visit to the Russian embassy was, actually one of defeat. He went there to guarantee that Russian forces will not cross the Ukrainian border, and he has agreed to pay for all the costs of the war, because all the leaders know, that he is the guilty party and has to pay the penalty. Just to hear this is so crazy, how can the world be turned so upside down. How can all of us, have been so fooled by the temporary controllers of this planet.

Basically the Pope was lusting after the gold in the Russian Orthodox Church, which has more wealth than the Catholic Church. The Vatican has been financing American and European organizations to go into Ukraine and destabilize the government and put their own people in places of power, through bribery and other promises. Finally, the Russian Church had to make a move, or be taken over by the Pope. This is why Mr. Keshe says, this is not a war, because when you take back your own property you are correcting the situation.

This is not the first time, but is an ongoing pattern of the Vatican. The Vatican succeeded in what you could call a corporate takeover of the Church of England. Then there was Libya, but the Vatican was betrayed by the British. The Vatican sent African priests into China with bags of diamonds to split up China, but the Chinese contained it in Hong Kong. They also collaborate with the Rothschild's family financially, as they have the same goals to control the humanity, but sometimes they fight amongst themselves. This is not conspiracy theory, but a deeper understanding of actual events taking place. We, the "little people" see the bits and pieces of information, but we don't know how to put it together, and emotionally we were trained not to question but to follow. In order for the Church to gain so much wealth and power it protects itself by keeping people ignorant of their own soul. We saw this clearly during the Inquisition, but it is still going on today in different hidden forms.

Now with the KF plasma technology all of this is changing. We are being taught that our soul is within us, and we don't need intermediaries to control and abuse us, by lack of understanding. Please try not to read this article and think, "now I understand the conspiracy." This will not help us, and could make us more neurotic. Instead be open to the possibility of another interpretation, like "oh, everything they told me about myself was not true, I am not ignorant and I am not a slave. The soul is within me, I can understand and become free to help the others by sharing what I have understood." Through this knowledge we loose our fear, and through our intention we share love, knowledge, and peace to bring about the elevation of the soul of all these leaders. This is what terrifies them most, that we should find out the truth. But for us it is the greatest opportunity to change ourselves and change the planet.

Thank you.

Summary

A question was asked about the Russian and Ukraine crisis and the idea of peace. How can we elevate the souls of both the Russian and Ukraine representatives, that are meeting right now to reach a truce?

Mr. Keshe answered in a very direct way, but leaving it to KS to think for themselves, by showing a photo of the Pope leaving the Russian embassy the night before the conflict started, with his head and shoulders slumped down, like a defeated man.

By this picture, the Pope gave President Putin the "carte blanche" for the war in Ukraine. He went to the Russian embassy in Rome on 23rd of February, 2022. In the history of the Catholic Church this is more or less unheard of. It seldom happens if ever, and for the Pope to go publicly there, makes you wonder.

The Americans and the western nations, knew that the Russians were going to go into the Ukraine, and they knew they could not touch the Russian army. So they tried to arm the Ukrainians from outside.

But when I saw this picture with the Pope, I knew that it was a war between the two Churches, the Catholic Church trying to take over the assets of the Russian Orthodox Church. I discussed this some 3 to 4 weeks ago in the North American Teaching and some other teachings. The war you see today in Ukraine, really goes back to the wars between different divisions of Christianity.

By the Pope going to the Russian embassy, he accepted the defeat of the Vatican. In this defeat, the Vatican has agreed to underwrite all the damages and costs of the war, including every bullet and every tank, that Russia will use in Ukraine.

The reason the Catholic Church is paying, is because they went into to dominate the Russian Church. (In other words, for many years now the Vatican, hidden in the

background has been financing the incursions of NATO and American billionaires into Ukraine both politically and militarily. The reason this is confusing to us now, is because the billionaires control the media reports, so everybody believes that the current situation in Ukraine came from inside Ukraine itself. Where the truth is, that it has been financed from outside. Putin offered to join NATO years ago, but they refused him, because the Pope was after the gold in the Russian Church.) The Russian Church had no choice but to go to the Russian Army to defend the Russian Orthodox Church.

The Americans, Chinese, and the European leaders all knew what was going on. (The only problem is, that the public still doesn't know.) The leaders all knew, that the Catholic Church was poking to start problems in the Ukraine, so that they could force the Russians to hand over the Russian Orthodox Church, or rather to hand over its assets to the Pope. Which means on the outside it would still say "Russian Orthodox Church," but inside the Vatican would have the control over it, like what was done to the Church of England. The Vatican controls the assets of the Church of England and the Queen is his servant. In the end, the Russian Church would not accept it, so they asked Putin to go in and clean it out, and get the nation of Ukraine back.

On the 23rd of February the Pope accepted his defeat, and now he has to underwrite the losses. In the photo here, this is the walk of a defeated man to the Russian Embassy in Rome. It says, "I am prepared to pay all the penalties." Now the Russians have a carte blanche to do what they like in Ukraine. Every bomb they drop, and bullet they use in Ukraine is paid for by the Vatican. The more weapons they use, the more profit they make.

This was the same situation during the Second World War, when the Americans sent their soldiers to Europe. Some European nations are still paying off the Americans, because they invoiced them for everything they spent, even the chewing gum.

Weeks ago I explained that there was a 99% chance that Russia will go into Ukraine, because they are trying to get their Motherland back, and the Americans, with the Vatican behind them, were poking to put all sorts of things inside their country. And finally the Russians did their job of protecting their motherland.

The Americans know, that they cannot face the Russians, or there will be a third world war - imminent. So everybody just stands outside barking like a dog. The Russians are literally wiping out, and cleaning the house out. There are 2 parts to this cleaning operation. First, is not allowing the others from outside to put their nuclear weapons inside the USSR, which Ukraine is part of it. This is what you see happening today. The Russians will be there, they'll wipe out, and put things back in order, but this is not a war. And secondly, they are claiming back the Church of the Russian territories, in such a way, that the Catholic Church will never put its foot again into the Orthodox Church of Russia. We could see this coming 3 and even 5 years ago.

We saw the same thing happening recently in China, where the Vatican, in the background was financing a war to split up China. But the Chinese confined it to Hong

Kong and battered them. The Vatican paid heavily for it. (Again this is very confusing for us, because the billionaires are controlling the media, so we heard a totally different story. I know this is hard for a lot of us to believe.)

The Vatican paid for all the things we saw happening in Hong Kong, but then the Chinese brought it under control. How they are financing in Ukraine, they did in a similar way in China. In China they used the Christians to bring the money in. Priests were flown in from Africa carrying diamonds in their bags, then they sold them in China to finance the violence, and everything else we saw. But the Chinese were waiting for them.

Another way they tried doing it, was to get rid of the communism by turning a lot of the Chinese into Christians. If you make 1 billion Christians out of the Chinese, then the Vatican becomes triple billionaires. But their plan wasn't going to go through, because the Chinese already had a structure that the people knew. The Chinese found out and took out everybody that was part of the plot.

This walk of the Pope, is one of defeat, and for the first time the Catholic Church had to be stopped. They warred with England for 300 years, until they finally won the Church of England. At the moment, the Queen is a servant of the Vatican and she has no more power. It's just like when one corporation takes over another, they let it run as it was, they don't interfere. Whatever you want to call it, just know that the Vatican owns it, the property is theirs.

This current, situation in Ukraine is an exact repetition of what happened in Europe a few years back, when the economies in Greece, Spain, Ireland, and Portugal collapsed. Then suddenly out of nowhere, miraculously everything came back to normal. All those countries came out of their problem. This was because the Vatican did not want the Christian structure in the European Union to fail.

So Vatican paid for all the debts, and then we saw immediately, what I call, the Rothschild's family behind it. (Later, they wanted to get their money back, so they appointed a German Pope, since the Pope is the sole owner of the Vatican Bank, he can withdraw the money without question, and remember the Vatican bank is not controlled by any other organization). The German Pope transferred the money back to the Rothschild's, then this Pope abdicated. The reason we don't hear anything about it, is because the money is transferred secretly. This is the same process going on again in Ukraine. (The controlled media, gives a different story to the people, so that's why it may be hard to believe.)

Over the past decades the Vatican guaranteed the finances for the Americans to poke into Ukraine and do whatever was needed, the same with NATO. NATO wanted to put their forces into Ukraine, but Russia finally said, no, and they gathered their own forces on Ukraine's border. This is when the showdown took place, and when it was certain Russia was going in, then the Pope had to go to the Russian embassy to take the guarantee that Russian forces will not cross Ukraine's borders, to come into Vatican territory, you can keep the Russian Orthodox Church in USSR, and we'll pay all the penalties, because we

were a naughty boy. The defeated man always goes to see the one who defeated him. This is a defeated man walking out of Russian embassy. He has underwritten to pay all the damages.

The Vatican always cashes in on their losses. This means, that it will be the Catholics from the American and European churches who will end up paying for all the damages in Ukraine. (Now it is clear why the controlled media has to present the Ukrainian the crisis the way it does. The people who give money to the Church will not be able to accept this kind of truth, unless their souls get elevated to understand.)

This visit by Pope to the Russian embassy was to get assurances, that Russia will not cross the Ukrainian border. We will see some skirmishes, but in reality, this is a war of religions, not a war of nations. In fact, it's not a war, it's a correction. It's the bringing of Ukraine back under the fold of the USSR.

Another way to look at it, is if you have a brother and he is on his own. The other boys bully and attack him until the big brother comes to help him, then the other boys all run away. But when the big brother comes, he puts his hands in the pockets of the ones who were doing the bullying, and he says, "you have to pay for the damages from bullying my brother."

This is what's happening now, and the Vatican pays for it. So don't worry about what's happening in Ukraine. We were watching this for some time, and were expecting this to happen 4 years ago. The delay in it has reasons. Putin knew about it, he was requested by the leaders of the Russian Orthodox Church to protect the Church of the motherland. He was waiting for the Church to make that request, and then he responded. He had a reason to show his power and to protect the motherland's Church, and that's all it is. It will not become a war, because this man walking out of the embassy has guaranteed to pay for it.

In a way, if you look at it, it's punishing those in Ukraine who went to bed with the Pope. I was looking over the situation, and it will take time, and it's possible we might see a small repetition of what was done in Afghanistan by kamikazes, and guerilla warfare. They stayed there for 15 years, and then they pulled out because they couldn't control it. And now the Europeans are trying to show that they are doing something in Ukraine.

But in general they should have it under control in about 3 to 6 months. They'll make sure nobody ever talks about NATO again. People may go on the streets and do whatever they like, but the Russians will change the people on the top and inside the government, so that the Vatican and the others will have no say in the running of Ukraine. Because from Russia's point of view, once Ukraine goes, Belarus will go, and the other parts of the Christian side of the corridor, that leads into Moscow will be opened up. Moscow would be in danger, so that door had to be closed.

This what we see in this picture, it's the walk of a defeated man. The Russian Orthodox Church is one of the richest churches in the world, and he took the risk to try to bring it under his control. The only thing they didn't count on, was that the Orthodox Church

would go to Putin, and Putin wanted to confirm, that he was there to do the job. We were watching the whole thing, and when we saw the Russian naval forces going through the Bosphorus up, we knew the war was on, or what I call, "cleansing the Vatican out of USSR." That's when I spoke in other teachings.

You have to understand that Church business is a financial business, and has nothing to do with religion. It has to do with making profit. When they decide to create a war, it is a long term investment. I explained this before, when the father dies, or the mother or the son dies in the western world, it's an investment for the Church. How does that work? Let's say the Vatican pays \$10 for the bullet that kills the father, or other family members. The surviving family members spend the rest of their life going to church to pray for the one who dies. Let's say, that every time they go to church they give a dollar. Add it all up over time, and it is a huge return on the investment made by the church to secretly start the war. Church business, God business is a money business, and nothing else.

This is why we said, there will be no more religion, because once you understand the power of the STM, do you need all this mayhem from those wearing the robes and the white frock. Look at the picture, you see the shoulders are folded in and his head and chin are down. This is the walk of a strong man defeated, a man thinking he is strong, defeated. Don't forget the Vatican and the Pope's have never sat down quietly and accepted defeat. We have to see what they plan to do over the next 20 years in other parts of Russia and the west. We'll see more mayhem between the two churches, unless we as KS can bring the light, and the understanding that God's word is within the STM.

Don't worry about this Ukraine business, the Vatican has already paid for it. And they'll receive the bill everyday, with how many bullets, how many shoes the soldiers used, and the food they used to fight this war. The Vatican has underwritten all of it.

The head of the Ukraine says, that the Russians will pay for everything they do, and all the damages they cause. Yes, no problem, because the Vatican has already paid the Russians, and they'll make profit in the losses. It will bring a lot of jobs to the Russian industry. This is the dirty business of religion, and we are watching many people suffering because of it. But to the leaders who are behind it, the peoples suffering is irrelevant.

Another time recently when the Vatican lost, was when the British monarch took the gold, that they all had planned to take together from Libya. The British Monarchy took revenge on the Vatican for loosing the Church of England, by taking 140 billion dollars of gold from the vaults of Libya. The British flew the gold directly to the Bank of Scotland, and eventually it ended up in the British government. The Vatican financed a program to bring down Libya, and then they were to share all the gold between the Italians, French, British, and Germans. But the British got there first and took it to Bank of Scotland. The other countries got together and decided to kick the British out of the EU, and they did it through BREXIT.

In the world of religion, the House of God never loses, because it is a house of money, not of God. So don't worry about Ukraine, you'll hear a lot of hullabaloo in the media for next maybe 6 weeks. The Russians will change the government, and then get paid. The Vatican will transfer the gold from its reserves into the Church of Russia, and not to the Russian government. Only those who are clever will see what's happening. Then the Russian Church will pay the Army's expenses. In the end those in Moscow will make maybe 10 to 20 billion dollars out of it.

You have to realize, that KF has very close advisors within the Vatican, very close advisors. We hear, we know, and we are informed continuously about what is, and what is about to happen. A Pope has never comes to an embassy to ask to stop a war. The Vatican has always created a war. And this one they accepted to pay for. The Russians were not prepared to pull their troops back. They said, "we are here, and we are going to show, and we're staying, but you have to pay." You have to look at the balance sheets of the Russian Parliament, to see all the expenses that the Vatican will pay for in this war.

Don't worry about Ukraine, it won't go beyond the boundaries of Ukraine to Romania and the other places. The Catholic Church made a move to put pressure through Ukraine, on the Russian Church to get it to bend. Ukraine went to bed with a superpower, both in religion and military forces. But you will not see the Americans or the Europeans interfering. They cannot do so, because they already accepted defeat, and they (obey) the Vatican. The deed is already done.

Now the boys play, and some of the old war machinery of the Russian army gets used up. The Vatican will pay, for every tank you see on the streets, and every plume of smoke you see coming out of the back of Russian tanks, know that Vatican has already underwritten to pay for all of it. It will not go beyond the Ukrainian border. The only problem is a lot of people will suffer from it. The churches are supposed to bring healing, and not create suffering.

Second excerpt from week before in 421 KSW (2:23:30 to 2:37:07)

The week before in the 421 KSW Mr. Keshe was asked, "6 months ago Mr. Keshe said, we as KS ended all wars, now we are on the verge of a war, that might lead to WW3. How would he explain what's happening in Ukraine?" And a second question was, "whose decision is it to kill people in Ukraine. Is Putin's soul deciding those who die?"

He replied, let me explain something, we don't have a war in Ukraine. I explained this very, very clearly in the American teaching a couple of weeks ago. The USSR never died, Russia as a USSR was never dissolved. Each country went on their own and they called themselves what they liked, but the nation and government of USSR was never legally dissolved. Ukraine is still part of USSR. It's not who decides, it's the USSR as a collective group of nations of what we call, the bigger Russia, have decided they are going to keep their property and their territory of Ukraine.

This is a Vatican war. The Vatican tried to attack and take over the Church of Russia, which is even richer than Vatican, but they could not get into it. The state of USSR is the administrator and protector of the Russian Orthodox Church. The USSR is headed by Russia and includes 12 other satellite nations. The Russian Church has asked all of them to protect the motherlands church. (This is why all the nations together are sending troops into Ukraine. They are not just Russian troops, but a union of nations.)

America will never go to war, and they know they are just barking like a dog, as I call it. Russia has the right to protect the assets of USSR. This is what they don't tell you in public.

Vatican is (secretly) financing this push, but there will never be a war. We said weeks ago, that there is a 99% chance, that Russia will go into Ukraine to protect the motherland, the USSR. Russia is not invading Romania, nor Bulgaria. Russia is protecting its structure from the pressure and push of the Vatican through NATO. They are trying to open the backdoor, to get the Church of Moscow, or Russian Orthodox Church to become the assets of the Vatican.

Get this very clear, it doesn't matter what you hear in the media. Russia has not moved into create a war, Russia has moved into its own territory, which belongs to it, as the USSR. Americans will bark, but they know they are in the wrong. The Europeans will bark, and they also know they are in the wrong.

There won't be a war. This is not a war, this is a correction. If the Russians don't correct this now, later there will be other civil wars. Maybe in Belarus, or like what we saw it in Chechnya, and the others. Vatican is trying to push, using NATO as their slave. If NATO can put forces in Ukraine, then they can force Russia to give up the Orthodox Church, which is richer than Vatican. This is not a war, it will never be a war.

Look at it this way, if America moves Marines from state of California to another state, is that a war?

The war is what happened in Ottawa in the last few days. That's the war of slavery, by their servants.

If you know geopolitics, America doesn't have the field forces to go into Ukraine, unless they do high level bombing, (like what they did in Yugoslavia). The Russian and USSR military forces have said, "one bomb out of Allied Forces on Ukraine, and we'll flatten out New York." Americans can bring sanctions, no problem.

We'll see the same pattern Russia has used over the years. They will move in and change the government. Then they'll take all these leaders who started becoming rebel soldiers, and opening huge business bank accounts in America and Europe, with the money they stole from the nation. Then after raping the nation they'll escape to the West, where they have also been paid, or they'll get caught by the Russians and taken to prisons in Siberia.

I have been to one of these prisons, so I know what they are going to do with them. Then after 30 to 60 days, or even 6 months, the Russians will withdraw. They install a pro-Moscow understanding of Orthodox Church of Russia, and then the barking dogs will stop in 12 months time. But there never will be a war. It cannot be a war.

If Canada or Mexico tried to takeover California, the American government would move troops to protect its motherland. It's the same with the USSR. This problem has been sitting there for many years, and now this is the second time it has come up, and now Russia has taken action to correct it.

The intrusion by Vatican, using the military forces of NATO has caused this problem. But there is not going to be a war. This is the motherland protecting its child. Russians have spent trillions of dollars investing in Ukraine. Just because you let your child leave home, doesn't mean you allow the others to rape them. The motherland has to protect its children. This is what we see now, and this is the correction in the political dimension in Ukraine.

For whatever reason soldiers get killed, this is part of it. I have been very close to the affairs in Moscow and Russia, and the politics in Kazakhstan for a long time. I don't support either policies or governments, but I stand very clear to see the reality and the truth of it, very clearly, where it sits and how it sits.

Ukraine today is still part of USSR. The Russian parliament and all of the parliaments of the 13 satellite nations should have dissolved the USSR, then Moscow wouldn't still have the leadership it has today. But as it stands legally, even if it wasn't Putin, it would have been somebody else, because the USSR still exists.

You have to understand that Vatican did the same thing with China. All that uprising we saw in Hong Kong was due to the financing by Vatican. They sent priests from Africa into China with bags of diamonds, to sell in China, and start a war to divide China, but China became aware of it.

I know exactly what is happening, because we are part of the peacemakers, we know what is happening with the governments of the world. All the mayhem and the pushes of the West into Hong Kong, was financed by the Rothschild's, and the Vatican.

About 6 years ago one of these Rothschild's people penetrated the KF to destroy it. At that time, we had a big breakage in our work and the number of KS disappeared. It was the same process they are using now in Ukraine.

We know this because one of the Iranian guys was connected to Rothschild's. They thought that because I am Iranian they could break through. But we found out with the help of the intelligence system. Go back to 6 - 7 years ago, and you'll know exactly what I am talking about, without mentioning any names.

We worked with the Chinese government, and it was isolated to Hong Kong, because they became aware of what is happening. Vatican wanted to split the Chinese state, but we and the Chinese state became aware of it and the system kicked in and isolated it to Hong Kong. In the media we saw all the battles they had for months, but now do you hear anything? All those leaders who got paid by the Vatican are now in government prisons in China. We see the same thing now in Ukraine.

The Vatican and the Rothschild's are killing themselves to destroy the peace, so that they can have the control. But it is not happening. I have no worries, because this is not a war, you just see a few dogs barking. But let's see what happens. In 6 months time when things are back to where they should be, we might see some of the people who got benefited by NATO, going and jumping on the streets. They are what I call, "the free slavery of the Vatican inside." Otherwise, the majority of the people of Russia and Ukraine know exactly why the Russians are coming in.

Just because you left the side gate, of the fence in your garden open, doesn't mean the dogs can come in. You close the gate and keep the dogs out. It's as simple as that. They can bark behind the fence as much as they like. There shouldn't be a war, unless something goes crazy with somebody in the West.

I have been part of this process for 40 years, and I worked long enough with the Russians and Chinese to understand their point of view. Yeltsin once said, "Mehran has slept in more beds of the presidential offices around Russia than I have." Then you know how close we are, and how much we understand, and understand the technology and the feeding of the nation.

First of all Europe doesn't have enough forces to match Russia. Secondly, if they push, Russia will close the gas pipelines. Western Europe needs that gas to survive, especially in the cold winter time. The Russians have chosen the best time to do it. If they close the pipelines, the prices will go up, the Germans and the rest will freeze, and their nations will go on the streets. It's very well planned, and carried out. Western Europe relies on the gas pipeline from Russia for the heating and their life in the winter. They know what they are doing.

The Americans can bark, but we won't see high level bombing, like what they did in Yugoslavia. A few field forces here and there, but Europe doesn't have that kind of military, especially with the Corona, to stand a full invasion from Ukraine into Western Europe. It's not going to happen. Russia is just getting its child back home, in a way, which became a bit astray. They will shout and kick, but at the end of it, when the child's in danger, the mother will bring her home.

Q: .. question about the Russian and Ukraine crisis and the idea of peace. How can we elevate the souls of both the Russian and Ukraine representatives, that are in meeting right now to reach a truce?

K- I am going to show you something. The picture you see. (Pope leaving Russian embassy slumped down). The carte blanche of the war in Ukraine was given to Putin with this picture. When the Pope on 23rd went to the Russian embassy in Rome. In the history of the catholic Church more or less, ever happened, seldom happened, never happened, that the Pope has gone to an embassy, open (in public). The way, what we've seen in this picture.

The Americans and western nations, knew that Russians are going in, they knew they could not touch the Russian army. (1:48). They tried to arm from outside. But this picture, when I saw it, go back to what I said, 3 - 4 weeks ago, I think it was in the American teaching, and a couple of other teachings, is the war between the Russian Church and the Catholic Church.

The war you see today, is back to the war between different divisions of Christianity. This picture by Pope going .. by Vatican going to the Russian Church (embassy) is accepting the defeat by the Vatican. Vatican had underwritten all the damages, every bullet Russia will use in Ukraine.

It was the Catholic Church, which went to dominate the Russian Church, and the Russian Church, went to its military, which is the Russian army, to defend the Church of the Orthodox Church of Russia. They knew, everybody knew, the Americans knew, the Chinese knew, the Europeans knew, they were poked by the Catholic Church to start problems in the Ukraine, that we force the Russia to hand, the Russian C to become one of our, becomes under our control. The Russian C would not accept it, and asked Putin to wipe out, to go and get the nation back, which is Ukraine.

Pope on 23rd knew, that he has to accept, (1:50). and underwrite the losses. This walk here to the .. Russian Embassy in Rome, is a defeated man, accepting the defeat, "I am prepared to pay all the penalties." Now the Russians have a carte blanche, every bomb they drop, and bullet they use in Ukraine is paid for by the Vatican. So they have no limitation what they put in. The more they put in, the more profit they make.

This is the situation with the Second World War, where the Americans sent soldiers to Europe, American GIs, has a chewing gum, .. had a breakfast, in 1946, 1942 you present people, of some of the European nations are still paying for that chewing gum, because the Americans invoiced you. Because they won the war, and you used them.

Now is the same situation. If you go back, weeks ago, I explained 99% Russia will go into Ukraine, because it is trying to get the Motherland back in, Americans were poking to put all sorts of things in. The Vatican was poking them, because Vatican poked them everywhere, and they did their job. The Americans know they cannot face the Russians,

there will be a third world war, imminent. So everybody is standing outside barking like a dog. The people are literally wiping out the house, cleaning out. But this cleaning out is 2 ways. First of all not allowing, (1:52). nuclear weapons to enter into, ?? from outside enter into what used to be the USSR, which Ukraine is part of it. You see what we see today.

Russians will be there, they'll wipe out, they'll use as many, as many tanks, this is not a war. This is the claiming back the Russian territory church, back in order, that the Catholic C will never put foot into the what we call, Orthodox C of Russia. We could see this one 3 years ago. We knew this was coming up 5 years ago.

Vatican financed the war, the split of the China. Chinese put them into Hong Kong and battered them, and Vatican paid for it heavily. Vatican paid for all the things you saw, because they (the Chinese) brought it under control. Because Vatican wanted to do what they did in Russia, bring Christians in, diamonds flew in from Africa through the priests who came, people who came into China, and these diamonds were sold, to finance violence and everything else, and the Chinese were waiting for it. This is the other way of doing it. They tried to get rid of the Communism to make a lot of Chinese Christians. If you make 1 billion Chinese Christian, Vatican becomes triple billionaire, but it wouldn't happen, because the structure was there and they knew. They looked after it, they found out, and the took everybody out that ?? was relevant.

This walk of the Pope, is defeat. For the first time Catholic Church had to be stopped. They warred with England for 300 years, (1:54). they won the Church of England, the Queen is a servant of the Vatican at the moment, she has no more power. Even though you call it, ?? It's just like you take over a company, you let it run as it is, we don't interfere. You want to call it whatever else, we own it, the property is ours.

This financing of this, which Russia is developing to get the whole thing back under control, and the Vatican is paying for it. Is exactly the repetition of, if go back a few years ago when the economy in Greece collapsed, .. Spain, .. Ireland, and Portugal the economy collapsed. And suddenly, miraculously, everything came back to normal. They all came out of their problem. Because Vatican did not want the .. Christian structure of the EU to fail.

So Vatican paid for all the debts, and then we saw immediately, what I call, not the Rothschild's family behind it, when it came balanced, they took the money they invested from Vatican, they appointed a German chancellor, they took all the money out of Vatican to pay for the money they lent to Spain, Greece and others to come out of financial collapse. It's the same process.

Now the Vatican guarantees the Americans you poke in, you do whatever. NATO pokes in, we want to bring NATO in, Russia said, no. They put their forces there, and Vatican took a guarantee in this embassy meeting, (1:56). that do not cross Ukraine border, do not come in our territory, keep the Russian Orthodox Church in USSR, we pay for all the penalties, we were a naughty boy. The defeated man always goes to see the man who

defeated him. This is a defeated man walking out of Russian embassy. He has underwritten all the damages.

You will see in the next few years American, European churches will pay for this, to the Vatican. Vatican has always cashed in their losses. This visit by Pope to the Russian embassy was to get assurances, that Russia will not cross the border. You will see skirmishes, but this is a war of religions, not war of nations. This is not a war, it's a correction, and .. bringing Ukraine back under fold.

What you start. It's in a way, if you look at it, you have a brother, he is on his own, the other boys bully and attack, till the big brother comes, then all run. But when the big brother comes, he puts the hand in the pocket of the ones who are bullying, "you have to pay what you damaged, by bullying my brother." This is now the Vatican pays. Don't worry, we were seeing this, we were expecting this 4 years ago. The delay in it has reasons, and Putin knew about this and was requested, by the leaders of the Orthodox Church in Russia, (1:58). to protect the motherland's Church. He was waiting for that and he responded. He had a reason to show his power. He had a reason to protect the motherland's Church, that's all it is. It will not become a war, because this man has guaranteed it by the payments. We'll see a number of people.

In a way, if you look at it, is punishing those who went to bed with this man (Pope) in Ukraine. It will take time. I was looking at it, it's possible we'll see a small repetition of Afghanistan by kamikaze, wars and things, Europeans trying to show we are doing something, over the Ukraine. As we saw for years, Russians stayed 15 years in Afghanistan, and then they pulled out, because they couldn't control it. But it under control, in about 3 to 6 months. Makes sure nobody ever talks about NATO. People can go on the streets and do whatever they like, but changing the people on the top, inside, that the Vatican has no say in the running of Ukraine, and the others, Because once Ukraine goes, Belarus goes, the other parts of the Christian side of the corridor, .. into Moscow opened, and it had to be closed. This what we see is the walk of the man of defeat. He Catholic Church risked that they going to bring the Russian Orthodox church, and one of the richest churches in the world, under control. The only thing they didn't count was that the Church will go to Putin, and Putin wanted to confirm, (2:00). that he is there, and they watched it. We watched this mass work. When I spoke in other teachings, when we saw the Russian naval forces going through the Bosphorus up, we knew the war is on, or what I call, the cleansing the Vatican out of USSR has started.

You have to understand Church business is a financial business, has nothing to do with religion. It has to make profit. When you create a war, it is a long term investment. I explained this before, the son dies, the mother dies, the father dies in the western world. This is the investment, which the Church or what we call, the Vatican put for that bullet to kill the father. They paid \$10 for the bullet, the father dies, mother dies, the child dies, the man goes a lifetime to church to pray for his son, or the father, and the mother, and puts a dollar every time in. I invested \$10 in the bullet, I get a \$100 (return) on

investment over ?? 40 years in my pocket. Church business, God business is a money business and nothing else.

That's why we said there in no (more religion), once you understand the power of the STM. Do you need this mayhem, the robe and white frock. You see the shoulders are folded, you see the head down (Pope in picture). Just open this picture, and you look. The chin folded, the shoulders are side down. This is a walk of a strong man defeated. (2:02). Thinking strong man defeated. Don't forget the Pope, the Vatican has never sat down quiet. We have to see what they plan in the next 20 years, in other parts of Russia and the west. We'll see more mayhem between the 2 Churches, unless we bring the light, that God's word is within the STM.

Don't worry about this Ukraine business, Vatican has already paid for it. And they receive the bill everyday, how many bullets used, how many shoes the soldiers used, the food they used to fight their war. Vatican has underwritten it.

When the head of the Ukraine state, says that Russians will pay for everything they do, all the damages, yes. No problem, Vatican has already paid us, we'll make profit in the losses. We'll do it for you, it brings a lot of jobs to the Russian industry. This is the dirty business of religion, and we are watching many people suffering because of it, and to them (leaders) it is irrelevant.

This is the second time in past decade, that Vatican has lost. Once the British took back what they gave in Libya, and now the second time. The British Monarchy took revenge on loosing the Church of England to Vatican, by taking 140 billion dollars of gold from the vaults of Libya, (2:04). into the British monarchy, and ?? now to the British government and nation. All flew directly into the Bank of Scotland. I was explaining this last week when I was in London to somebody.

All the wealth, which is collected in a program financed by Vatican, to get into Libya, to get the gold and share between Italian, French, British, Germans and Vatican was taken by the British into Bank of Scotland, which is the royal bank, and not in the ?? , the royal bank of Scotland, which is the national bank, assets of the nation. They wouldn't give it (share it with the other countries), and that's why they got kicked out of the EU (through Brexit). You don't pay, we kick you out. What you have, the Brexit is the consequences. Now we have to see what exit comes out of this. Will American pay for these damages, or who and how Vatican will bill what we wanted to do. You didn't go, we pay for it. House of God, never loses in the world of religion, because it is a house of money, not God.

Don't worry about Ukraine, you'll hear a lot of hullabaloo, for next maybe 6 weeks. They'll change the government and they get paid, and the Vatican transfers the gold, from the reserves into the Church of Russia, because they have to pay the Church of Russia, and they pay the army's expenses. They'll can make maybe 10 - 20 billion out of it in Moscow.

You got to realize KF has very close advisors within the Vatican, very close advisors. (2:06). We hear, we know, we are informed continuously of what is, and what is about to happen. A Pope has never come to an embassy, to ask to stop a war, Vatican always created a war. And they accepted to pay for it. But the Russians were not prepared to pull back. They said, we are here, and we are going to show, and we're staying, and you pay. You have to see what check book on the Diets (Russian Parliament) clothes, that Vatican has written for the war, and the penalty.

Don't worry about Ukraine, it won't go beyond the boundaries of Ukraine to Romania and the other places. The Church made a move, to put pressure on Ukraine, to get the Church of Russia to bend, and they said Ukraine is in bed with a supper power, both in religion and military forces. You will not see the Americans or the Europeans interfering, they cannot do, because they already accepted defeat, and they listen to Vatican. The deed is done.

Now the boys play, and some of the old ?? machinery of the Russian army gets used. And Vatican pays, ever tank you see on the streets, every fuels, every smoke in the back of the tank. Vatican has already underwritten, as a defeated man. It will not go beyond the Ukrainian border. The only problem is a lot of people will suffer with it, and this what churches are there, to create suffering, not there to bring healing.

(Ukraine - proofed)

Any other question (2:08).

?? whether to use ??

421 KSW week before: (2:23:30 to 2:37:07) proofed

R: We got a question about Ukraine.

Q: Question, 6 months ago Mr. Keshe said, we as KS ended all wars, now we are on the verge of a war, that might lead to WW3. How would he explain what's happening in Ukraine?

Q: . Whose decision is it to kill people in Ukraine. Is Putin's soul deciding those who die. (2:24).

K- Let me explain something. We don't have a war in Ukraine. I explained this very, very clearly in American teaching a couple of weeks ago. USSR never died, Russia as a USSR was never dissolved. Each country went on their own and they called themselves what they liked, but the nation and government of USSR was never dissolved. Ukraine is still part of USSR. It's not who decides, it's the USSR as a collective nations of what we call, the bigger Russia, have decided they are going to keep their property and their territory.

This is a Vatican war. Vatican tried to attack, tried to take over the Church of Russia, which is even richer than Vatican, and they could not get into it. The Church of Russia

has asked, as the administrators, as protector of the Church, the state of USSR, headed by Russia, and other nations of Russia, other 12, to protect the motherland. America will never go into war, because they know they are just barking like a dog, as I call it. Russia has the right to protect the assets of USSR. This is what they don't tell you in public.

Vatican is financing this push, and there will never be a war. We said, 99% weeks ago, that Russia will go into Ukraine to protect the motherland, the USSR. Russia is not invading Romania, nor Bulgaria. (2:26). Russia is keeping the structure protected from the push of the Vatican through NATO, to push, pressurize Russia, that they are open on the backdoor, the Church of Moscow, or Russian Orthodox Church to become assets of the Vatican.

Get this very clear, doesn't matter what you hear (in the media). Russia has not moved into create a war, Russia has moved into territory, which belongs to it, as USSR. Americans will bark because they know they are wrong. The Europeans will bark, they know they are wrong. And there won't be a war. This is not a war, this is correcting, in what done later, becomes civil wars, in Belarus, we saw it in Chechnya, and the others. Vatican is trying to push, using NATO as their slave, to push, that we go, we go into Ukraine, we put forces in there, or you give us the Church of Russia. It's not a war, this will never be a war.

If you look at it this way. Is there a war if the America takes the Marines from state of California to another state. Is there a war? The war is what happened in Ottawa in the last few days. That's the war of slavery, by their servants.

If you know the geopolitics, (2:28). Americans don't have the field forces, unless they go high level bombing. You high level Russia, I said, Russian USSR military forces have said, "one bomb out of Allied Forces on Ukraine, they'll flatten out New York." That's the territory of. Americans can bring sanctions, no problem.

What's going to happen, this is the pattern we've seen over years. Russia will move in, they change the change the government, they take all these leaders who started becoming rebel soldier, and what you call, opened business accounts, and huge money in America and Europe, they stole a lot, raped the nation. They'll escape, or they'll take them to prisons in Siberia. I have been to one of them, I know what they are going to do with them. Then after 30 days, or 60 days, or 6 months, Russians withdraw, they instate a pro-Moscow understanding of Orthodox Church of Russia, and then the barking dogs will stop in 12 months time. There never will be a war. Cannot be a war.

Moving soldiers to protect the motherland, same as you want Arizona and other states to be part of US. You don't let the Canadians or the Mexicans take it. It's the same with USSR. This is the problem, which was sitting for years to come up, and now has come up for a second time.

Intrusion by Vatican, using military forces of NATO on this side, has caused this problem, but there is not going to be a war. This is the motherland protecting its child.

Russian has spent trillions in Ukraine. (2:30). As I said, when your children try to go, and you let them go, it doesn't mean for the others to rape them. The motherland protects them. This is what we see now, and this is the correction in the political dimension in Ukraine.

It's not going to be. If soldiers get killed, for whatever reason, we've seen it happening, this is part of the what we call. You have to look at it from the Russian. I have been very close to the Moscow, .. and affairs of the politics in Kazakhstan, and Moscow Russia for a long time. I don't support either policies or governments, but I stand very clear to see the reality and the truth very clearly, where it sits and how it sits.

Ukraine today is still part of USSR, the Russian parliaments, and all other parliaments of the 13 nation satellites, should have dissolved the USSR, this would not have given the USSR, under instruction of the leadership of Moscow. Even if it wasn't Putin there, it would have been somebody else, you would still have this position.

Vatican, you got to understand Vatican did the same thing with China. All that uprising we saw in Hong Kong was the amount of the financing, diamonds, Vatican sent into GoJo, into central Asia to create with the black people of China, problems, literally they came in as priests with bags of diamonds, they sold it in China, to start a war to divide China. China was aware of it.

I know this exactly what is happening, because we are part of the peacemakers, we know what is happening with the governments. (2:32). They isolated it to Hong Kong, and they financed Hong Kong to break up. We saw how the wisdom of his Excellency of president Xi of China brought this under control. All the mayhem we saw, all the pushes of the west in Hong Kong, was financed by Rothschild's, and by Vatican.

One of these Rothschild's guys was in the KF 6 years ago. They penetrated the KF through Rothschild's to destroy the KF, at that time we had a big breakage in the work of the KF, and the number of KS disappeared, because of it, was the same process. Because we know one of the Iranian guys was connected to Rothschild's, thinking I am Iranian, they can break in through, but we were watching it with the work of the intelligence system. Go back to 6 - 7 years ago, and you'll know exactly what I am talking about, without mentioning names.

Then with our work with the Chinese government, it was isolated, they were aware of what is happening, they got .. the position sorted. So they went to Hong Kong with all the fight. You cannot imagine how much diamonds Vatican brought from Africa with the priests, they brought in, went to China, to create the splitting of the Chinese state. Exactly what they did, but this time, we were aware, the Chinese were aware, and the system kicked in, and isolated it in HK, and you saw all the battles we had for months, and now do you hear anything? All those leaders who got paid by the Vatican are in the government prison in China. We see the same thing now in Ukraine.

Vatican and Rothschild's are killing themselves to destroy the peace, that they have the control, and it is not happening. (2:34). I have no worries, this is not a war, this is ??? you see a few dogs barking, ?? let us see. In 6 months when it is stated back to where it should be, the present people will go on the streets, come and jump, which they get benefited by the NATO, and the what I call the free slavery of the Vatican inside. They shout and holler on the street, otherwise people of the Russia and Ukraine know exactly why, the Russians are coming in.

Just because you left the side of the fence in your garden doesn't mean the dogs can come in. You put a fence up and keep the dogs out, and that's as simple as that. They can bark behind the fence as much as they like. There shouldn't be a war, unless something goes crazy with somebody in the west. We don't see any.

I explained that in the American teaching very recently. I have been part of this process for 40 yeas, and I worked the Russians and the Chinese for long enough to understand what is their point of view. Yeltsin once said, Mehran has slept in more beds of the presidential offices around Russia than I have. Then you know how close we are, and how much we understand, and the T of the nation and the feeding of the nation.

It is not going to happen, it should not happen. First of all Europe doesn't have forces to match the Russia, secondly, if they push the pipelines will close, you don't live in the west, in Europe. (2:36). Winter cold time. The Russians have chosen the best time to do. We close the pipelines the prices will go up, the Germans and the rest will freeze, and their nations will go on the street. It's very well planned, and done. Western Europe relies on the gas pipeline from Russia for the heating and their life in the winter. They know what they are doing, and in a way.

The Americans can bark, but we won't see high rise bombing, in whatever. A few field forces here and there, and secondly Europe doesn't have that kind of military, especially with the Corona, to stand a full invasion from Ukraine into western Europe. It's not going to happen. Russia is just getting the child back home, in a way, which became a bit astray. They will shout and kick, but at the end, when the child is in danger, the mother will bring her home.

Any other question. (2:37:07)
